Biocide 10

ACTIVE INGREDIENTS:
Potassium dimethylthiocarbamate .................................................. 10.0%

INERT INGREDIENTS .......................................................... 50.0%

TOTAL .......................................................... 100.0%

KEEP OUT OF REACH OF CHILDREN
DANGER

First Aid

If in Eyes
• Hold eyes open and rinse slowly and gently with water for 15 to 20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call poison control center or doctor for further treatment advice.

If on Skin, Clothew...
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15 to 20 minutes.
• Call poison control center or doctor for treatment advice.

If Inhaled
• Remove from exposure to fresh air.
• If symptoms persist, call doctor.
• Call poison control center or doctor for treatment advice.

Precautionary Statements

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes eye and skin damage. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid contamination of food. Wear protective gloves and rubber gloves when handling. Wash thoroughly after handling. Wash hands before eating, drinking, chewing gum, or using the toilet. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, ditches, canals, or other waterways unless it is done in compliance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified. USE product in accordance with the requirements of the National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified. Do not discharge this product or any effluent containing this product in a manner that will cause contamination of any waterway or watercourse. Do not discharge effluent containing this product in any stream or waterway without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Directions for Use

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Biocide 10 is used in industrial and commercial recirculating cooling tower systems and industrial cooling systems to control microbiological slime. Prior to the use of Biocide 10 in industrial and/or commercial recirculating cooling tower systems, systems should be cleaned to remove scale, growth, and other deposits. Then make an initial slug of 12.0 to 17.0 fl oz of Biocide 10 per 1000 gal. If you do not know the size of your system, consult a professional. Repeat initial dosage until control is evident. Make subsequent slug additions at 6.0 to 6.5 fl oz of Biocide 10 per 1000 gal. If you do not know the size of your system, consult a professional. The frequency of addition depends upon the relative amount of balance and the severity of the microbiological problem. Slug additions should be made in the sum of recirculating cooling tower systems.

Biocide 10 is used in industrial and commercial recirculating cooling tower systems, which maintain effective metal corrosion inhibitors. To use in systems, systems should be cleaned to remove scale, growth, and other deposits. An initial slug of 12.0 to 17.0 fl oz of Biocide 10 per 1000 gal. If you do not know the size of your system, consult a professional. Repeat initial dosage until control is evident. Subsequent slug additions of 6.0 to 6.5 fl oz of Biocide 10 per 1000 gal. of water should be employed every 1 to 2 days, or as needed. The frequency of addition depends upon the relative amount of balance and the severity of the microbial problem. Slug additions may be made to the sum or the water collection tanks of the cooling system.

Storage and Disposal

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Do not expose to extreme temperatures. Do not store more than four drums high. Leaking or damaged drums should be placed in exercise drums for disposal. Drums should be stored in sand, or on well-ventilated floor. Keep container closed when not in use.

PESTICIDE DISPOSAL: Pesticide residues are acutely hazardous. Improper disposal of excess pesticide, spray rinse, or residue is a violation of Federal Law. If these residues cannot be disposed off by use according to label instructions, contact your local Pesticide or Environmental Control Agency, or the Hazardous Waste Team at your EPA Regional Office for guidance.

CONTAINER DISPOSAL:
Text for all noncomestible containers:
Noncomestible container. Do not reuse or refill the container. Offer for recycling, if available. Place in rigid, square container (or equivalent) promptly after emptying.

Liquid residue removal statement for noncomestible containers with capacity up to 5 gal:

Trick as follows. Empty the remaining contents into application equipment. Place the equipment on a flat, level surface. Seal the equipment with a cap or other cap. Remove the equipment from the surface. Dispose of the equipment in an approved manner.

Liquid residue removal statement for noncomestible containers with capacity greater than 5 gal:

Trick as follows. Empty the remaining contents into application equipment. Place the equipment on a flat, level surface. Seal the equipment with a cap or other cap. Remove the equipment from the surface. Dispose of the equipment in an approved manner.

Then offer for recycling if available or reconditioning, if appropriate, or condemnation and disposal in a sanitary landfill, or, by disposal by state and local authorities, by burning. Burned: stay out of smoke.

Do not discharge residue containing this product unless it is done in compliance with the requirements of the National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified. USE product in accordance with the requirements of the National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified.
