SPECTRUS OX101

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER  PELIGRO

CORROSIVE. CAUSES IRREVERSIBLE EYE DAMAGE. MAY BE FATAL IF INHALED. HARMFUL IF SWALLOWED OR ABSORBED THROUGH SKIN. Do not get in eyes, on skin or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS
This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA. Apply this pesticide only as specified on this label.

STORAGE AND DISPOSAL
STORAGE: Keep container tightly closed. Protect from freezing. Store in a dry place. Do not store at elevated temperatures.

PESTICIDE DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Pesticide wastes are acutely hazardous to aquatic life, beneficial insects and other wildlife. Do not dispose of wastes in bodies of water or drainage ditches. Do not apply this product near water. For disposal information, contact your State or local Pesticide office. Pesticide wastes may be treated on approved sites. Do not store pesticides for future use. Rinse all equipment thoroughly with water. Rinse all equipment thoroughly with water. Apply this product only as specified on this label.

KEEP OUT OF REACH OF CHILDREN

DANGER  PELIGRO

PHYSICAL AND CHEMICAL HAZARDS

CHEMICAL HAZARD: STRONG OXIDIZING AGENT. Mix only with water. Do not mix with other chemicals. Do not apply damp or wet utensils. Contact with organic matter may cause violent reaction leading to generation of heat, liberation of irritating and hazardous gases, and possible generation of fire and explosion. In case of contamination do not reseal the container.

FIRST AID

If in eyes
Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If swallowed
Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If inhaled
Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

If on skin or clothing
Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

HOT LINE NUMBER: 1-800-877-1940

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-877-1940 for emergency medical treatment information.
DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

RECIRCULATING COOLING WATER SYSTEMS
This product aids in the control of bacterial, fungal and algal slimes in evaporative condensers, heat exchange water systems, cooling and retort systems, commercial and industrial cooling towers, influent systems such as flow through filters and lagoons and industrial water scrubbing systems. This product may be added to the systems either continuously or intermittently or as needed to the tower basin, distribution box or some other point to insure uniform mixing. The frequency of feeding and duration of the treatment will depend upon the severity of the contamination. Control the application by measuring the free chlorine residual in the treated water. There is no need to exceed 1 ppm as free chlorine. Determine chlorine residual using a commercially available test kit. BADLY FOULED SYSTEMS must be cleaned before treatment is begun.

FOR THE CONTROL OF BACTERIA, FUNGI AND ALGAE
INTERMITTENT OR SLUG METHOD - INITIAL DOSE: When the system is noticeably fouled, add this product at the rate of 0.1 to 1.5 pounds (12 to 180 ppm) per 1000 gallons of water in the system. Repeat until control is achieved. SUBSEQUENT DOSE: When microbial control is evident, add this product at the rate of 0.05 to 1.0 pound (6 to 120 ppm) per 1000 gallons in the system daily, every 3 days or as needed to maintain control.

CONTINUOUS FEED METHOD - INITIAL DOSE: When the system is noticeably fouled, add this product at the rate of 0.1 to 1.5 pounds (12 to 180 ppm) per 1000 gallons of water in the system. Continue until control is achieved. SUBSEQUENT DOSE: When microbial control is evident, continuously feed this product to maintain a dosage of 0.05 to 1.0 pound (6 to 120 ppm) per 1000 gallons of blowdown (or water loss) from the system.
