53735-16 Frog Serene 200g Bromine Silkscreen

Using the FROG Serene In-Line Sanitizing System: With a freshly filled hot tub establish a bromine or chlorine residual of 1.0-2.0 ppm with FROG Jump Start®, an EPA approved hot tub shock or by other means by following directions on the package. Initially set the FROG Serene Bromine Cartridge per your gallon size: 200 gallons set #1, 250-300 gallons set #2, 400 gallons set #3, 450 gallons set #4, 500-550 gallons set #5 and 600 gallons set #6. Hold the bottom and turn the top until the number appears in the setting window. To install: open cap of In-Line System, push down and turn cartridge holder counter-clockwise to unlock. Pull holder out. Snap cartridge into “Bromine or Smart Chlor®” section. Make sure to line up indent on cartridge with raised line on holder. After cartridge is snapped in, replace holder by lining up arrow on holder with arrow on system lip, push down and lock in place. Replace cap. When using as directed with the FROG Serene Mineral Cartridge, maintain at least a 1.0 ppm bromine level. Otherwise maintain a 2.0-4.0 ppm bromine level. Initially test water daily and adjust cartridge setting up or down until desired bromine level is achieved. For best results at measuring low bromine levels, use the FROG Test Strips. Adjusting to a higher setting will increase the bromine output while a lower setting will decrease it. When empty follow disposal instructions and replace with a new FROG Serene Bromine Cartridge.

REENTRY into treated hot tubs is prohibited above levels of 5.0 ppm available bromine as measured by a suitable test kit due to the risk of bodily injury.

STORAGE AND DISPOSAL: Do not contaminate food or feed with this product.

Storage: Store cartridge in original container in a cold, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container and flood area with large amounts of water to dissolve material before discarding this container.

Pesticide Disposal: Product or rinsates that cannot be used must be diluted with water before disposal in a sanitary sewer.

Container Handling: Non-refillable container. Do not reuse or refill this cartridge. Offer for recycling if available. Rinse thoroughly before recycling or discarding in trash.

PRECAUTIONARY STATEMENTS:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed. Irritating to nose and throat. Do not get in eyes, on skin or on clothing. Avoid breathing dust and fumes. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco or using the toilet. Remove contaminated clothing and wash before reuse.

FIRST AID: If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. If Swallowed: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

IN CASE OF MEDICAL EMERGENCY CALL 1-800-424-9300.

Product Description: Use the FROG Serene Bromine Cartridge in the FROG Serene In-Line System along with the FROG Serene Mineral Cartridge (EPA Reg. No.: 53735-11) for complete and easy hot tub care with water that’s crystal clear and odor free.

Directions for Use: It is a violation of federal law to use this product in a manner inconsistent with its labeling. Read entire label to use strictly in accordance with precautionary statements and directions. Ensure all hot tub equipment is working properly. The pump and filter should be operated for at least 3 hours per day. Clean filter following manufacturer’s directions. Adjust pH to between 7.2 - 7.8 and total alkalinity to 80-120 ppm. When using other products as outlined in directions for this product, always follow directions on those products. Keep the hot tub free of leaves and debris. Residential hot tubs should be drained and filled with fresh water periodically. See your hot tub manufacturer’s directions.

THE ALTERNATIVE WAY TO SANITIZE

A fresh approach to clean, clear water using mineral technology that actually offers these advantages:

- **CLEANER** because it kills 99.9% of bacteria and is a fine food for minerals.
- Minerals help keep the pH balanced for **CLEANER** water that feels soft.
- Minerals condition the water for a **SOFTER** feel.
- Cartridges are provided for no mess, no tools, no waiting, **EASIER**.

REPLACEMENT CARTRIDGES FOR SERENE IN-LINE SYSTEMS

KILLS BACTERIA 2 WAYS WITH MINERALS & BROMINE

- Minerals reduce bromine use up to 50% pre-filled cartridges for no touching or measuring bromine

MINERAL CARTRIDGE LASTS 6 MONTHS
BROMINE CARTRIDGE LASTS 3-4 WEEKS

NOT JUST CLEAN. SERENE.

- Lower your bromine use up to 50% with minerals.
- Unlike chlorine, bromine does not off-gas in hot water so it’s easier to regulate. No for eyes or skin.
- Bromine is less impacted by pH so it means more sanitizing effectiveness.
- Soft feeling water feels good on your skin, petals and hot tub surfaces.
- Just set it and forget it for worry at a time.
