Kills Listed Weed Roots!

Annual yellow sweet clover
Annual trampweed
Annual rape (Wild rape)
Amur honeysuckle
Alpine aster

Wait until newly seeded grass is well established or after the third mowing before applying this product.

When calling a Poison Control Center or doctor, or seeking treatment, have a description of this product available.

• If swallowed: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a Poison Control Center or doctor. Do not give anything to an unconscious person.

• If in eyes: Rinse well with water for at least 15 minutes.

• If on skin: Wash with soap and water. If irritation persists, get medical attention.

NOTE: Do not contact with clothing or skin. Wash thoroughly with water to remove any contact that may occur.

PRECAUTIONARY STATEMENTS

Do not apply to zoysiagrass just emerging from dormancy.

Environmental Hazards

The chemical may be hazardous to the environment, especially if it is allowed to enter waterways, storm drains, or groundwater. Do not apply when it is windy or following heavy rainfall, applying on a dry day is recommended. Do not apply to any exposed or developing woody plantings. Do not apply to zoysiagrass just emerging from dormancy. Do not move materials away from treated areas without irrigation. Do not apply to zoysiagrass just emerging from dormancy.

APPLICATION DIRECTIONS

For lawns, apply to actively growing weeds using the recommended rate of 2.6 to 3.3 lbs AI per 1,000 sq ft.

Do not apply to zoysiagrass just emerging from dormancy.

STORAGE AND DISPOSAL

Store in a cool, dry place. Do not mix or store with other products.

PRECAUTIONARY STATEMENTS

In case of accidental ingestion, do not induce vomiting unless instructed to do so by a Poison Control Center or doctor. Do not give anything to an unconscious person.

FIRST AID:

For first aid instructions, see the Material Safety Data Sheet (MSDS) included in the package. For emergency information, call 1-800-917-5438.

NOTES:

Do not apply to zoysiagrass just emerging from dormancy.

NOTE: Do not contact with clothing or skin. Wash thoroughly with water to remove any contact that may occur.

DIAGNOSIS AND DISPOSAL

This product is not hazardous when properly applied. However, if you are not satisfied with this product for any reason, please call 1-800-917-5438.

Kills Listed Weed Roots!

Annual nettle (Dwarf nettle)
Annual knawel
American hazel
Alyce clover
American black elderberry
Alder

Este pesticida es tóxico para los peces y los invertebrados acuáticos y puede afectar de manera adversa a las plantas que crecen en el agua subterránea. La aplicación alrededor de un tanque de agua o un pozo puede contaminar el agua potable o subterránea.

‡Las señales visuales y el tiempo que tarda la eliminación completa dependerá del tipo de maleza, la temperatura y la dosis de aplicación.

MODO DE EMPLEO

1. Gire la boquilla a un tipo de rocío grueso. Evite los rocíos demasiado finos porque pueden causar arrastre y dañar otras plantas.
2. Rocíe las malezas no deseadas hasta cubrirlas por completo.
3. El riego inmediatamente después del tratamiento puede reducir la eficacia.

DIRECCIONES PARA USO

Forbest results, apply between 45˚F-90˚F.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals
CAUTION.

NOTA: Hasta el grado que sea compatible con la legislación pertinente, el comprador asume toda la responsabilidad para seguridad y uso que no estén de acuerdo con las instrucciones.

Questions or Comments?

This chemical has properties and characteristics associated with chemicals detected in groundwater. The use of this product in soil with high soil moisture content may adversely affect the water table. Use this pesticide at a site where the water table is protected or controls are used to maintain the water table at a level that is compatible with safe operation of this pesticide.

MODO DE EMPLEO

1. Gire la boquilla a un tipo de rocío grueso. Evite los rocíos demasiado finos porque pueden causar arrastre y dañar otras plantas.
2. Rocíe las malezas no deseadas hasta cubrirlas por completo.
3. El riego inmediatamente después del tratamiento puede reducir la eficacia.

ALMACENAMIENTO Y ELIMINACIÓN

Este producto es tóxico para los peces y los invertebrados acuáticos y puede afectar de manera adversa a las plantas que crecen en el agua subterránea. Si fuera necesario, el pesticida puede ser aplicado en zonas de suelos permeables, particularmente donde la capa freática es poco profunda, puede contaminar el agua subterránea.

NOTA: Hasta el grado que sea compatible con la legislación pertinente, el comprador asume toda la responsabilidad para seguridad y uso que no estén de acuerdo con las instrucciones.
