Kills and prevents algae
Improves filter operation and reduces need for other chemicals

ACTIVE INGREDIENTS:
n-Alkyl (60% C14, 30% C16, 5% C12 and 5% C18)
dimethyl benzyl ammonium chloride.........................................................49.8%
imethyldimethyl benzyl ammonium chloride..............................................0.2%
INERT INGREDIENTS:..........................................................................................50.0%
TOTAL..................................................................................................................100.0%

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SWIMMING POOLS
For best results follow a weekly program with Aqua Silk® Algae Control products. Take a pool water sample to your authorized Aqua Silk® dealer regularly for a detailed water analysis. This product must be added directly into the water with the filter pump running. Swimmers or bathers must wait 15 minutes before re-entry.

INITIAL DOSE: Add 5 1/4 fluid ounces Aqua Silk® Algae Control per 10,000 gallons of pool water. Initial dose is used when filling pool or upon conversion to Aqua Silk® Algae Control. If pool has visible algae growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or reappear, repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance dose. For persistent algae or slime producing microorganism growth, add 5 – 7 1/2 ounces of Aqua Silk® Algae Control per 10,000 gallons of pool water into the skimmer with the filter pump running. After one minute, shut off the pump and allow the system to remain off overnight. The following day, restart the filter pump and add 5 – 7 1/2 ounces of Aqua Silk® Algae Control to the pool. Run the filter continuously for 24-48 hours, brushing the sides and bottom of the pool frequently.

MAINTENANCE DOSE: Add 1 1/4 fluid ounces Aqua Silk® Algae Control per 10,000 gallons of pool water. Maintenance dose should be added weekly. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently. Maintenance dose should be added after a heavy or prolonged rainfall. If make-up water is added at the rate of more than 10% per week of pool capacity, add 1/2 fluid ounce Aqua Silk® Algae Control for each 1,000 gallons of fresh make-up water added.

Winterization: When swimming season is over, add initial dose prior to closing pool. This dose helps provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS.
DANGER. KEEP OUT OF REACH OF CHILDREN.
CORROSIVE: Causes irreversible eye damage and skin burns. Do not get in eyes or on clothing. Wear protective eyewear (goggles, face shield, or safety glasses), protective clothing, and rubber gloves. May be fatal if swallowed. May be harmful if absorbed through the skin. Wash thoroughly with soap and water after handling and before eating, drinking, and using tobacco. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish.
PHYSICAL OR CHEMICAL HAZARDS: Do not use or store near heat or open flame.

FIRST AID
IF IN EYES • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, and continue rinsing eyes. • Call a poison control center or doctor for treatment advice.
IF ON SKIN • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
IF SWALLOWED • Call poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by the poison control center or doctor. • Do not give anything by mouth to an unconscious person.

MEDICAL EMERGENCY INFORMATION CENTER:
1-800-654-6911

IF RISK OF INHALATION EXIST: • Get person into fresh air. • If person is unconscious, call a poison control center or doctor immediately. • Follow their directions.

IF IN EYES
• Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, and continue rinsing eyes.
• Call a poison control center or doctor for treatment advice.

IF ON SKIN
• Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.

IF SWALLOWED
• Call a poison control center or doctor immediately for treatment advice. • Have the product container or label with you when calling a poison control center or doctor, or going for treatment. • Do not induce vomiting unless told to do so by the poison control center or doctor.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

IN CASE OF EMERGENCY
CALL: 1-800-654-6911.

STORAGE AND DISPOSAL
Pesticide Storage: Store in original container in an area inaccessible to children and persons unfamiliar with this product’s use. Keep this product in a tightly closed container when not in use.
Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixtures, or rinse water is a violation of Federal Law. These wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

Container Disposal: Non refillable container. Do not reuse or refill container. Clean container promptly after emptying. Wrap bottle and put in trash or offer for recycling if available.

SPILL OR LEAK PROCEDURES: Small spills may be mopped up, flushed away with water, or absorbed on some absorbent material and incinerated.

FOR INFORMATION OR SPILLS CALL 1-800-654-6911.
