**Mint Fragrance**

**Lines Cleaner**

Proven Formula for Dental Unit Waterline Treatment

This solution controls microbial contamination while cleaning the dental unit supply tubing. For use in pressurized self-contained water delivery systems.

**Ready-to-use; Do not dilute**

**Active Ingredients:**
- Chlorhexidine Gluconate: 0.12%
- Other ingredients: 99.88%

**Total:** 100.00%

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**INITIAL CLEANING (SHOCK TREATMENT)/NEW USERS**

Week 1 to 3: Use every night. This initial 3-week period makes sure that any microbial build-up in the dental tubing lines is eliminated.

**Note:** Remove handpieces and scalers to avoid plugging and clogging instruments due to discharge during first time use.

**ROUTINE CLEANING**

Use once a week. For best results, leave solution in waterlines overnight or over the weekend.

**DAILY USE**

Monarch Lines Cleaner may be added daily to potable water supplies. Add 1 oz. of Monarch Lines Cleaner per quart to tap or distilled water.

**DIRECTIONS FOR DENTAL UNIT WATERLINE CLEANING**

**Step 1: Air Purge Dental Unit Waterlines**

1. Turn dental unit OFF. Empty water bottle and place back on dental unit.
2. Turn dental unit ON.
3. Air purge waterlines by activating handpiece hoses and air/water syringes until water is eliminated.

**Step 2: Add Monarch Lines Cleaner**

1. Turn dental unit OFF. Remove water bottle and pour 2 fluid ounces (60 ml) of Monarch Lines Cleaner into dental unit’s empty water bottle. Place water bottle on dental unit.
2. Turn dental unit ON. Activate handpiece hoses and air/water syringes until Monarch Lines Cleaner exits.
3. Turn dental unit OFF. Allow Monarch Lines Cleaner to treat dental unit supply tubing for at least 6 hours, overnight or over the weekend before proceeding to Step 3.

**Step 3: Flush Dental Unit Waterlines**

1. Remove water bottle. Dispose of any excess solution and fill bottle with fresh water.
2. Turn dental unit ON. Flush waterlines for 30 seconds to remove any excess Monarch Lines Cleaner.

**EPA Establishment No.:** 67161-NY-1

**Peel back for additional precautions and directions**
Clinical monitoring of water quality can ensure that it meets ADA guidelines of < 200 CFU/ml for dental unit water lines. The ADA guidelines are specific to heterotrophic bacteria, which have no public health effects. This is an analytical method used to measure a variety of bacteria that are common in water. The lower the concentration of bacteria in drinking water, the better maintained the water system. Test water quality quarterly to establish effectiveness of your maintenance program. If water quality results do not meet ADA standards for water quality, repeat Initial Treatment.

For optimal cleaning results, air purge and clean all instruments and tubing, including handpiece, air/water syringe, scaler and waterlines.

**STORAGE AND DISPOSAL**
Do not contaminate water, food or feed by storage and disposal.

**PESTICIDE STORAGE:**
Do not store near open flame, at elevated temperature or in intense light.

**PESTICIDE DISPOSAL:**
Wastes resulting from this product may be disposed of on site.

**CONTAINER DISPOSAL:**
Non-refillable container. Do not reuse or refill this container. Offer for recycling if available, or puncture and dispose of in a sanitary landfill, or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

**FIRST AID**

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes then continue rinsing. Call a poison control center or doctor or go for treatment. You may also contact 1-800-489-8868 for emergency medical treatment information.

**IF SWALLOWED:** If large quantities are ingested, do not induce vomiting. Drink large quantities of milk or water. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-489-8868 for emergency medical treatment information.

**PHYSICAL AND CHEMICAL HAZARDS**
Combustible. Do not use or store near heat or open flame.
