FS-1

NET WT: 4 lbs (1.81 kg)
0.28 oz (8g) Sachets

KILLS RATS, MICE, AND MEADOW VOLES*
KILLS ANTICOAGULANT RESISTANT NORWAY RATS, ROOF RATS AND HOUSE MICE

KEEP OUT OF REACH OF CHILDREN
CAUTION

See back panels for First Aid, additional Precautionary Statements, and Directions for Use.

ACTIVE INGREDIENT:
Bromethalin (CAS #63333-35-7): . . . . . . . . . . . . . . . . 0.01%
OTHER INGREDIENTS†: . . . . . . . . . . . . . . . . . . . . . 99.99%
†Contains Denatonium Benzoate

TOTAL 100.00%

*Not permitted for use against the following species in California: Cotton rat, Eastern harvest mouse, Golden mouse, Polynesian rat, Meadow voie, White-throated woodrat, Southern plains woodrat, and Mexican woodrat

**Norway rats, Roof rats and House mice usually consume a lethal dose in a single night's feeding, but it may take two or more days from the time of bait consumption for these rodents to die.

Photo may not be representative of a label-consistent bait placement
**User Safety Requirements**

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of gloves before removing them. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, dressing, grooming, using tobacco or using the toilet and changing into clean clothing.

**Environmental Hazards**

This product is extremely toxic to mammals and birds. Crops and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water, or to areas where surface water is present or to interstitial areas below the mean high water mark. Do not contaminate water when disposing of equipment wash-water or residues.

**Directions for Use**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. READ THIS LABEL: Read this entire label and follow all use directions and use precautions. Use only for the sites, pets, and application methods described on this label.

**Important:** Do not expose children, pets, or non-target animals to rodenticides. To help prevent exposure:

1. Store unused product out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals and non-target wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and by children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from bait stations when they are filled, units must be secured or otherwise immobilized. Bigger bait stations are needed in areas open to accessing livestock, scavengers, bears or other potentially destructive animals, or in areas prone to vandalism.
3. Dispose of product container and unused, spoiled or unconsumed bait as specified on this label.

**FIRST AID**

**Have Label When Obtaining Treatment Advice**

If Swallowed:

- Call a poison control center, doctor, or 1-877-604-2494 immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

If on Skin or Clothing:

- Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Hold eye open and rinse slowly and gently with water for 15–30 minutes.

If in Eyes:

- Hold eye open and rinse slowly and gently with water for 15–30 minutes.

**Treatment for Pet Poisoning**

If an animal eats this bait, call a veterinarian or 1-877-604-2494 at once.

**NOTE TO PHYSICIAN OR VETERINARIAN**

Contains the nerve poison bromethalin. This product is not an anticoagulant type rodenticide. For humans or animals ingesting bait and/or showing poisoning signs (such as muscle tremors, loss of food intake, or seizures for animals), limit description by either emesis or gastric lavage. Subtle symptoms, if present, would be the result of cerebral edema and should be treated accordingly through administration of an osmotic diuretic and corticosteroid.

**User Safety Requirements**

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of gloves before removing them. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, dressing, grooming, using tobacco or using the toilet and changing into clean clothing.
