If the area to be treated has been recently treated with insecticide, thoroughly clean the area before applying bait. Do not spray insecticide

2. Place bait in cracks, crevices, corners and locations where ant traffic is observed and nesting areas are suspected.

USE INSTRUCTIONS

• Remove the cap from the nozzle, attach tip, touch the tip to the surface to be treated, and push down on the plunger. Apply bait as spots or lines. Recap the dispenser after treatment is completed.

• Do not deposit gel onto exposed surfaces. If gel bait contacts exposed surface, remove gel bait and wash exposed surfaces.

• Do not apply gel bait in areas where repellent insecticides have been or will be used in the future without thoroughly washing the surface.

• Do not apply gel bait in areas where food utensils or food preparation surfaces may become contaminated.

• Do not treat food preparation surfaces.

• Do not apply gel bait in locations that are routinely washed, as bait will be removed by washing.

• Do not apply gel bait in areas where the temperature exceeds 120 - 130°F because this could cause the gel bait to liquefy.

WHERE TO USE: FOR USE IN RESIDENTIAL, INSTITUTIONAL, COMMERCIAL AND INDUSTRIAL AREAS AND TRANSPORTATION EQUIPMENT:

Use sites include single- and multi-family residential buildings, schools, commercial and industrial establishments, aircraft, trains, ships, boats and buses.

BEFORE YOU APPLY: Inspect infested areas carefully to determine overall infestation levels, locations of foraging, nesting areas and most appropriate application points.

Removing food and water sources helps with bait acceptance.

USE INSTRUCTIONS

This product is only for use as a spot or crack and crevice treatment in areas inaccessible to children or pets for the control of ants. This product is designed for use as a spot or crack and crevice treatment to control ants in residential structures in areas that are inaccessible to children and pets. It is best to replace bait before it is completely consumed.

If the area to be treated has been recently treated with insecticide, thoroughly clean the area before applying bait. Do not spray insecticide over gel as this may cause the bait to become repellent. Do not apply to areas that are routinely washed (such as countertops) as bait may be removed or diluted and spread onto the surface.

PRECAUTIONARY STATEMENTS

ENVIRONMENTAL HAZARDS

Do not apply this product in or around electrical equipment due to the possibility of shock hazard.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS:

• Do not apply to humans, animals, clothing or bedding.

• Do not contaminate food or food products, food preparation surfaces, dishes, kitchen utensils or food containers.

• Do NOT APPLY ANY BAIT IN COCKPI T AREAS OF AIRCRAFT.

• Only use in areas not easily accessible to children, pets and other non-target organisms.

• Only for spot and crack and crevice application.

• Do not apply gel bait in areas where repellent insecticides have been or will be used in the future without thoroughly washing the surface.

• Do not apply gel bait to areas where food utensils or food preparation surfaces may become contaminated.

• Do not treat food preparation surfaces.

• Do not place gel bait in locations that are routinely washed, as bait will be removed by washing.

• Do not deposit gel onto exposed surfaces. If gel bait contacts exposed surface, remove gel bait and wash exposed surfaces.

• Do not apply to surfaces where the temperature exceeds 120 - 130°F because this could cause the gel bait to liquefy.

INSECTS KILLED: Ants (excluding fire ants and carpenter ants). Includes: acrobat, Argentine, bigheaded, cornfield, tawny crazy, field, ghost, harvester, honey, little black, odorous house, pavement, pharaoh, pyramid, rover, thief and white-footed ants.

HOW MUCH TO APPLY (APPLICATION RATE):

Apply Sumari Ant Gel Bait as spots or small lines of gel near active foraging trails, nest sites or to areas known to be active without disrupting the ants to ensure the ants take the bait back to the nest.

• Apply a minimum of 1 gram of Sumari Ant Gel Bait. Bait may be applied as:
  o Individual spots (see figure for approximate sizes and weights).
  o Lines of Sumari Ant Gel Bait of approximately 1/8” wide and 4” long (1 gram of bait); up to 12” long (3 grams) for highly active foraging trails.

• Inspect Sumari Ant Gel Bait placements periodically and apply fresh ant gel as needed.

To increase feeding area use spots rather than lines. Examples of Sumari Ant Gel Bait placement amounts:

- Figure 1: Line of gel approx. 1/8” x 2”
- Figure 2: Spot of gel approx. 0.1g
- Figure 3: Spot of gel approx. 1g

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE:

Store in a cool, dry place. Always store pesticides in the original container. Store away from food and pet food.

PESTICIDE DISPOSAL AND CONTAINER HANDLING:

Non-refillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
