PetArmor® is a simple source™ of safe & effective flea & tick control for dogs.

PetArmor® simple source™ flea & tick topical for dogs is PetArmor® safe & effective flea & tick control for dogs. It is not necessary to apply PetArmor® flea & tick topical for dogs more than once every two weeks, but it can be used more often if your dog is in a highly infested environment.

If you’re concerned about the safety of the products you have in your home, here’s comforting news. PetArmor® simple source™ is PetArmor® safe & effective flea & tick control for dogs. It contains none of the common allergens, has no harsh chemicals, and is PetArmor® safe & effective flea & tick control for dogs.

Scientists have found that certain plants produce compounds that help to defend against and repel insects. These compounds are known as essential oils. Essential oils have been used for centuries in the treatment and prevention of insect infestations because they are safe, non-toxic and easy to apply.

These oils are Generally Recognized As Safe (GRAS) compliant.

How to Apply

1. Remove the cap.
2. Use the perforated tube to apply the treatment on the skin. Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, when rinsing eyes.
3. For Dogs Weighing Under 15 lbs: Open the applicator at the perforation. While holding the dog with one hand, use the other hand to apply the treatment to the base of the tail. For Dogs Weighing Between 15 lbs to 40 lbs: Pinch the dog's back between the shoulder blades, and apply the treatment to the skin at the base of the tail. Apply the treatment toward the other end of the tail. Repeat this process as necessary, watching for additional fleas and ticks.
