CLARIFY® MINERAL LICK TUB WITH AMAFERM®

FOR CATTLE AND HORSES

To Prevent the emergence of horn, house, face and stable flies from the manure of treated cattle.

To Prevent the emergence of house and stable flies from the manure of treated horses.

FEEDING AND MANAGEMENT INSTRUCTIONS

Provide Ranchers Choice Clarify® Mineral Lick Tub with Amaferrm® as a free choice source of minerals and vitamins for your cattle and horses. When used as directed, this product will provide sufficient diflubenzuron to prevent the development of fly larvae in manure of treated cattle and horses. This product prevents the development of horn flies, house flies, face flies, and stable flies in the manure of treated cattle and horses. Existing adult flies will not be affected. Start feeding this product early in the spring before flies begin to appear and continue feeding throughout the summer and into the fall until cold weather restricts fly activity. Allow free choice to cattle and horses. Cattle should consume an average of 0.10 mg of diflubenzuron per kg of animal body weight per day, to achieve control of horn, house, face and stable flies. Cattle should consume an average of 0.08 mg of this product per 100 lb of animal body weight per day, which is equivalent to 8 oz per day for a 1,000 lb cow. Horses should consume an average of 0.13 mg of diflubenzuron/kg of animal body weight per day to achieve control of house and stable flies. Horses should consume an average of 1.2 ounces of this product per 100 lbs. of animal body weight per day, which is equivalent to 12 ounces per day for a 1,000-pound horse.

Assure cattle and horses are not starved for nutrients prior to feeding this product. This product contains added copper. Do not feed to sheep and other species that have a low tolerance to supplemental copper. Do not use in association with feeds containing supplemental selenium. Offer cattle and horses 1 tub for every 15 to 25 head. Remove all other self-limiting nutritional supplements. Locate this product where cattle and horses congregate (watering, loafing, shade areas). Replenish this product on a regular basis as needed. If intake of this product is below 0.8 ounces per 100 pounds animal body weight per day for cattle or 1.2 oz per 100 lb animal body weight per day for horses, increase the number of feeding locations and/or change location(s) to areas more frequented by cattle and horses. If intake of this product is above 0.8 ounces per 100 pounds animal body weight per day for cattle or 1.2 oz per 100 lb animal body weight per day for horses, reduce the number of feeding locations and/or change location(s) to areas less frequented by cattle and horses. Introduction of this product after adult fly infestation is established may require treatment of cattle and horses with supplemental sprays to reduce the adult fly population coming from outside sources.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS - CAUTION:

Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Storage: Store in a cool, dry place.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Handling: Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available, or puncture and dispose of in a sanitary landfill or by other procedures approved by state and local authorities.

FEEDING INGREDIENTS: Molasses Products, Monocalcium Phosphate, Magnesium Oxide, Processed Grain By-Products, Calcium Carbonate, Vegetable Oil, Aspergillus oryzae Fermentation Product, Manganese Polyacrylate Complex, Zinc Polyacrylate Complex, Copper Polyacrylate Complex, Manganese Hydroxychloride, Zinc Hydroxychloride, Basic Copper Chloride, Selenium Yeast, Vitamin A Supplement, Vitamin E Supplement, Vitamin D Supplement, Cobalt Proteinate, Ethylene diamine Dihydridocele and Cobalt Carbonate.

Feeding selenium at levels in excess of 0.3 ppm in the total diet is prohibited.

KEEP OUT OF REACH OF CHILDREN

CAUTION
