Combination synergist and adulticide

PROTECTS STORED GRAINS, SEEDS, GRAIN BINS AND WAREHOUSES (INDOOR AND PERIMETER TREATMENTS) AGAINST DAMAGE FROM INDIAN MEAL MOTH, SAW-TOOTHED GRAIN BEETLE, RED FLOUR BEETLE, RICE WEEVIL, MAIZE WEEVIL, AND OTHER LISTED PESTS

- Emulsifiable concentrate
- For use on grains, empty bin and perimeter treatment
- Residual control
- May be diluted with water or oil
- Miscible in dust-controlling oils

ACTIVE INGREDIENTS:
Deltamethrin.......................................................... 1.2%
Piperonyl butoxide .................................................. 33.3%
OTHER INGREDIENTS:................................................ 65.5%
TOTAL:...................................................................... 100.0%

Contains 0.1 lb deltamethrin per gallon
Contains 2.67 lb piperonyl butoxide per gallon

KEEP OUT OF REACH OF CHILDREN
WARNING
SEE BACK PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS

NET CONTENTS:
2.5 GAL (320 FL OZ)
HAZARDS TO HUMANS AND DOMESTIC ANIMALS - WARNING: May be fatal if swallowed or absorbed through skin. Causes moderate eye irritation. Do not get in eyes, on skin, or on clothing. Wear protective eyewear (goggles, face shield or safety glasses). Wear coveralls, socks, chemical-resistant footwear, and chemical-resistant gloves including barrier laminate or ≥14 mils nitrile, neoprene, polyvinyl chloride, Viton or butyl rubber. For overhead exposure, wear chemical-resistant headgear. When mixing and loading, wear a chemical-resistant apron. When cleaning equipment, wear a chemical-resistant apron. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

FIRST AID

If swallowed
• Call a poison control center or doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to by a poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

If on skin
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice.

If in eyes
• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
• Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-248-7763 for emergency medical treatment information.

ENVIRONMENTAL HAZARDS

This product is extremely toxic to freshwater and estuarine fish and invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters, or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

This pesticide is highly toxic to bees exposed to direct treatment. Do not apply or allow it to drift to crops or weeds on which bees are actively foraging.

PHYSICAL AND CHEMICAL HAZARDS

Do not use water-based sprays of Centynal™ Synergized Insecticide (Centynal™ Synergized) in conduits, motor housings, junction boxes, switch boxes, or other electrical equipment because of possible shock hazard.

Manufactured for
Central Garden & Pet Company
1501 East Woodfield Road  200W
Schaumburg Illinois  60173

EPA Reg. No.: 89459-115
EPA Est. No.: 2724-TX-1
DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

PRODUCT INFORMATION

Centynal™ Synergized is an emulsifiable concentrate insecticide that contains an adulticide and synergist for use on stored grains and for treating empty bins and warehouses for stored product pest control. Centynal™ Synergized provides effective knockdown and control of listed adults.

USE RESTRICTIONS

- Apply this product only as specified on this label.
- Do not contaminate food or feedstuffs.
- Do not treat entire area of floor.
- Do not apply as a space spray.
- Do not allow contact to treated areas until spray has dried.
- Only protected handlers may be in the treatment area during application. Do not enter or allow others to enter the treated area until vapors, mists, and aerosols have dispersed, and the treated area has been thoroughly ventilated.
- Do not apply this product more than once every 30 days.
- Do not apply until the location of heating or air conditioning ducts, vents, water and sewer lines and electrical conduits are identified. Once known, applications may be made around these structures, however, avoid contamination of these structures and airways.
- Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow this product to enter any drain during or after application.
- Do not apply this product in a way that will contact workers or other persons, either directly or through drift.

STORED GRAIN

- Use to control adults and accessible larval stages of listed insect pests including, lesser grain borers, larger grain borers, Angoumois grain moths, Indian meal moths, tobacco moths, Dermentids, and bean weevils; also, to control populations of granary weevils, rice weevils, maize weevils, saw-toothed grain beetles, red flour beetles, and confused flour beetles.

Tank-mixing

Centynal™ Synergized may be tank-mixed with other pesticide products such as Pyronyl™ Crop Spray and/or Diacon® IGR. It is the pesticide user’s responsibility to ensure that all products are registered for the intended use. Read and follow the applicable restrictions and limitations and Directions for Use on all product labels involved in tank-mixing. Users must follow the most restrictive Directions for Use and Precautionary Statements of each product in the tank mixture.

Directions for Treatment

Dilute Centynal™ Synergized with water or approved dust-controlling oils, mineral or soybean oils and apply to the moving grain stream as a coarse spray. Final spray volume with water solutions is 3–5 gallons of liquid per 1,000 bushels of grain. For rough rice, use 10 gallons of water per 1,000 bushels. Maintain agitation before and during application. Use a mixed dilution within 48 hours of preparing. Re-agitation of spray dilution may be required if left overnight.

For final spray volumes with oil solutions, follow the oil manufacturer’s rate recommendations. For uniform application, treat the grain as it moves into storage. Apply Centynal™ Synergized in solution at the rate of 3–5 gallons of dilution per 1,000 bushels to achieve 0.5 ppm on the commodity. Apply at rates as shown in the tables below:

SEED TREATMENT

Apply Centynal™ Synergized to protect stored grain seed against injury from listed insect pests. Clean and treat seed storage areas prior to storage. If seed is infested, fumigate* to control existing populations and apply Centynal™ Synergized for residual protection. Centynal™ Synergized may also be used in conjunction with registered fungicides or other insecticide seed protectants, to control barley, corn, oats, popcorn, rice, rye, sorghum and wheat seed during the seed treating process, and prior to bagging or placing in bulk seed storage. When treating seed with other pesticide products, properly tag the treated seed, indicating “Do not use seed for food, feed, or oil purposes.” Seed treated with Centynal™ Synergized alone is considered grain.

**Fumigate with EPA-registered fumigants according to manufacturer’s label recommendations.

GRAIN BINS AND WAREHOUSES

Dilute 1–6 fl oz of Centynal™ Synergized with water to make 1 gallon of solution. Before storing or handling grain, apply finished spray to equipment, wall and floor surfaces of grain bins and warehouses at the rate of 1 gallon per 1,000 sq ft but do not allow runoff to occur. Apply after equipment bins and buildings have been thoroughly cleaned.

Apply Centynal™ Synergized as a perimeter treatment to prevent infestation of these structures. Apply to areas where listed pests are seen or may find entrance. Treat a band of soil or grass up to 6–10 feet wide around and adjacent to structures and treat the foundation to a height of 2 to 3 feet. Mix 1–6 fl oz of Centynal™ Synergized with water to make 1 gallon of solution. Apply as a coarse spray at a rate of 1 gallon per 1,000 sq ft. Wet the barrier area thoroughly and uniformly but do not allow runoff to occur.

STORAGE and DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. PESTICIDE STORAGE – Mix as needed. Store in original container in a secured, dry storage area. Avoid extremes in temperatures. Prevent cross-contamination with other pesticides and fertilizers. If the container is leaking and/or material is spilled on floor or paved surfaces, absorb on sawdust or other commercially available absorbing material, sweep up and remove to chemical waste area for your disposal. Concentrate is stable at normal storage temperatures. PESTICIDE DISPOSAL - Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility. CONTAINER HANDLING – Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.
