CONTINUOUS SPRAY

FLEA + TICK EASY SPRAY

Vet's Best® Flea + Tick Easy Spray was expertly formulated for pets using a unique blend of Certified Natural Peppermint Oil and Eugenol (from Clove plants) that kills fleas and ticks. Its unique applicator offers a continuous spray for fast and easy coverage while providing a gentle mist that doesn't startle your cat. For over 30 years, Vet’s Best® has blended premium quality and plant-based ingredients that work together to comfort and protect your pet.

For Home & Cat

PLANT-BASED FORMULA
Kills Fleas, Flea Eggs, & Ticks
Kills & Repels Mosquitoes

SAFE AROUND CATS 12 WEEKS OR OLDER
DIRECTIONS FOR USE: READ ENTIRE LABEL BEFORE EACH USE AND USE ONLY IN ACCORDANCE WITH LABEL INSTRUCTIONS.

For Pet Bedding, Cat Furniture, Collars, Pillows, Blankets, Carpet and Rugs: This product is designed to be non-staining when used as directed; however, always apply a small amount to an inconspicuous area to test for colorfastness before treating. Spray the surface uniformly with a light mist until moist. Avoid applying spray to blankets, cat beds, or cushions, or to delicate fabrics. Always allow the product to dry completely before allowing pets to return area. Not recommended for use on fine furniture.

For Cats 12 Weeks or Older: Apply indoors or outdoors in a well-ventilated area. Do a test spray one hour before full treatment and monitor for signs of sensitivity. Lightly spray the surface to be treated until damp. Do not saturate. Do not spray in the face, nose, eyes, ears, or genitals. For a concentrated treatment, apply a small amount to the coat until the product reaches the skin. Let coat dry completely before allowing pets to return area. Not recommended for use on fine furniture.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS
FORMULA: Capsaicin-related ingredient. Read handle intramuscularly with soap and water after use. For external use only. Prolonged or frequent repeated skin contact may cause allergic reaction in some individuals.

DOMESTIC ANIMALS: Sensitivity may occur after use of any product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Consult a veterinarian before use if the product is to be used on debilitated, medicated, pregnant or nursing animals. Do not use on or near kittens younger than 12 weeks old. For external use only.

NOT RECOMMENDED FOR AQUATIC USE.

FIRST AID
IF IN EYES: Hold eye open and gently rinse with water for 15-20 minutes. Remove contact lens, if present, after the first 5 minutes, then continue rinsing eye. Hold eye open and rinse slowly and gently with water for 15-20 minutes. If necessary, seek medical attention.

IF INHALED: Remove to fresh air. If symptoms persist, contact a physician.

IF ON SKIN: Remove contact lens, if present, after the first 5 minutes, then continue rinsing skin thoroughly with soap and water for 15-20 minutes. If necessary, seek medical attention.

IF IN OR ON HAIR: Remove to fresh air. Avoid contact with eyes, nose, and mouth. Place under strong, running water from a showerhead or spray head. If necessary, seek medical attention.

IN CASE OF OVERDOSE: For pets only. Do not induce vomiting. If symptoms persist, contact a physician.
