Garden Safe® Brand Diatomaceous Earth Crawling Insect Killer

Kills Listed Crawling Insects

- Kills German Cockroaches, Ants, and some carpet beetles
- Insect pests killed: beetles, earwigs, house centipedes, and other crawling insects

For Use Outdoors

Contains: Diatomaceous Earth, FR-220, FR-306, and FR-505

Net Wt 4 lb (1.81 kg)

PRECAUTION

CAUTION: Keep out of reach of children. MANTÉNGASE FUERA DEL ALCANCE DE LOS NIÑOS.

Modo de empleo

Aplique solo a las plantas y en el suelo alrededor de la plantas. No aplique a hardscapes (incluyendo azulejos, piedras, madera o metal).

Dónde usar

Use en EXTERIORES sobre las plantas y en el suelo alrededor de las plantas. No use en interiores, sobre superficies de escarcha, en árboles, ni en árboles de Navidad.

CAUTION: No use en interiores, sobre superficies de escarcha, en árboles, ni en árboles de Navidad.

Almacenamiento y eliminación

Almacenar en un lugar fresco y seco. Eliminar el producto vacío. No vuelva el envase. Déjelo en la basura u ofrezca para reciclaje, si existe esa opción.

PRECAUCIÓN

MANTÉNGASE FUERA DEL ALCANCE DE LOS NIÑOS. MANTÉNGASE FUERA DEL ALCANCE DE LOS NIÑOS.

Prohibido el uso para niños menores de 10 años.

CAUTION: Not for sale to children. 

CAUTION: Not for sale to children.

Restrictions

- No use on food or on plants that will be used for food.
- Not for sale to children.

How to Apply

Apply Garden Safe® Brand Diatomaceous Earth Crawling Insect Killer to areas and around the base of plants.

Hazards to Humans and Domestic Animals

Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

Riesgos para el medio ambiente

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will minimize risk to beneficial insects and the environment.

Environmental Hazards

WARNING: Do not contaminate water, food, or feed by either intentional or unintentional release of material. To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with the instructions on the container. 

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing for at least 5 more minutes.

Precautionary Statements

Hazard: respiratory or skin sensitization. 

CAUTION: Harmful if swallowed. Do not get into eyes, on skin or clothing. Avoid inhaling spray. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. 

Rinse and wash all clothing before reuse. Wash work clothes separately from wash clothes. Change and wash contaminated clothing as soon as possible. Keep respiratory tract clear. Remove and wash contaminated clothing and shoes before reuse. Use with adequate ventilation. Avoid contact with skin, eyes or clothing.

First Aid Measures

Inhalation: Remove to fresh air. If the person breathing the material is unconscious, apply resuscitation techniques and call for medical assistance immediately.

Eye Contact: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing for at least 5 more minutes. Get medical assistance if irritation persists.

Skin Contact: Wash thoroughly with soap and water. If irritation occurs or persistence, get medical assistance.

Ingestion: Rinse the mouth, then induce vomiting by giving one teaspoon of water to stimulate vomiting. Do not give anything by mouth to an unconscious person. Get medical assistance immediately.

Other Information

Agricultural Insecticides:

Diatomaceous Earth for control of insects, mites, and other arthropods is used in agricultural, horticultural, and poultry applications. It is usually applied as a dry material and is effective against a wide range of insect pests that are in direct contact with the material. A wide variety of biological control agents, such as nematodes and entomopathogenic fungi, can be used in conjunction with diatomaceous earth to control a broad spectrum of arthropod pests. 

Surface waters: Apply diatomaceous earth to water bodies and associated sediments at least 100 feet from storm drains and other water bodies to prevent contamination. 

Water bodies: Apply diatomaceous earth to water bodies and associated sediments at least 100 feet from storm drains and other water bodies to prevent contamination.

To use: Apply diatomaceous earth as directed on the label. 

NOTICE: To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with the instructions on the container.

Precautionary Statements

Directions for Use

Modes of Action

According to studies conducted by the U.S. Environmental Protection Agency (EPA) and the U.S. Food and Drug Administration (FDA), diatomaceous earth (DE) is effective against many crawling insects. It is commonly used as a natural pest control method due to its non-toxic properties.

Storage and Disposal

The container is non-refillable. Do not reuse or refill this container.

First Aid

If in Eyes:

Wash out the eyes with large quantities of water for at least 15 minutes. Remove contact lenses, if present, after the first five minutes, then continue washing. If persistent irritation occurs, seek medical treatment.

If in Mouth:

Do not induce vomiting. Wash out the mouth with large quantities of water and give activated charcoal or milk. Seek medical treatment if irritation persists.

If on Skin:

Wash the skin thoroughly with soap and water. If irritation occurs, seek medical treatment.

If Swallowed:

Do not induce vomiting. Drink large quantities of water and give activated charcoal or milk. Seek medical treatment if irritation occurs.

Precautionary Statements

Hazards to Humans and Domestic Animals

CAUTION. Harmful if inhaled. Harmful if swallowed. Harmful if absorbed through the skin.

Application

Apply to soil around plants and on plants as directed. Avoid contact with eyes or clothing. Wipe up any diatomaceous earth that falls from treated plants. Do not apply to plant that are wet or likely to be wet as toxic to plant life.

Restrictions

Do not use on or near food or feed, or on or near any food or feed processing equipment. Do not use on or near edible plants, edible parts of plants, or on or in water bodies. Do not use on or near vegetables, fruits, or ornamental plants, or on or near any food or feed processing equipment.

How to Apply

Apply the diatomaceous earth directly to the base of the plant or soil around the plant as directed. Be sure to cover the entire plant and the soil around it.

Where to Use

Use OUTDOORS on plants and on the soil around plants against:

- Ants (except carpenter, harvester, and pharaoh ants)
- Beetles (except wood-destroying beetles)
- Stink bugs, treehoppers, and whiteflies
- Leafminers, leafhoppers, leaf rollers, leaf skeletonizers, mealybugs, scale insects, aphids, spider mites, whiteflies, psyllids, aphids, assassin bugs, and thrips
- Garden Safe Crawling Insect Killer

Aplique la Tierra diatomácea para matar insectos rastreros de la marca Garden Safe.

Storage and Disposal

- Store in a cool, dry place.
- Disposal: If empty, wash container with soap and water before recycling or disposing of as waste.
