**NOTE TO CLIENT:**
- Please do not remove this diagram from final art file.

**OUTLINE OF THE FONTS**

**Some Notes to the Designer:**
- 1. Hold all text 1/8” from Cut Marks. (No critical graphic elements.)
- 2. Blend full coverage background graphics 1/8” beyond Cut Marks.
- 3. BOP HERE (like here) recommended for upper right corner of OP1.
- 4. OP1 has full coverage graphics, blend 1/16” to 1/32” onto OP1.
- 5. This Template is provided as a 2 layers. Simply turn off the text layer to use the layout only as a place in your image document.

**NOTE:**
- Do not modify this template.
- Include a Hi-Res PDF Copy.
Outside panels

Cover pet’s ears with hands. With a fine, fast stroke, spray head, ears, and chest. Then use stick, spray directly.

1. With cloth, rub face area around mouth, nose, and eyes. Then spray neck, middle, and head quarters. For slow mover, spray legs, move spray container, when not in use. Store in a cool, dark, inaccessible to children and animals.

Recommended dosage: Not for use on debilitated, aged, pregnant, or nursing animals. To achieve the best results, weekly treatment is recommended. For Fleas and Ticks:

1. For best results, ruffle the coat while spraying against the natural lay of the hair. Avoid spraying rectum and genitals.

Non-standard panels.

WARRANTY AND CONDITIONS OF SALE:

To the extent consistent with applicable law, seller makes no other warranties, and disclaims all other warranties, express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose. Seller warrants that this product conforms to the applicable law or regulation. Seller’s liability for default, breach or failure under this label shall be limited to the amount of the purchase price. Seller shall have no liability for consequential damages.

NOTE TO CLIENT: Please do not remove this diagram from final art file.
Petcor®2 Flea & Tick Spray is most effective when used as part of a total flea and tick management program. The other Precor® products registered for residential premise control of these pests in conjunction with this treatment. Monthly premise treatments are recommended for optimal control and prevention of fleas and ticks. The successive feeding activity of fleas on pets may trigger a hypersensitivity skin disorder known as flea allergy dermatitis (FAD). This treatment in pets with Petcor®2 Flea & Tick Spray kills fleas and may reduce the incidence of this condition.

HARMFUL TO HUMANS – CAUTION: Do not use on animals less than 12 weeks of age.

FSHELD TO HUMANS – CAUTION: Do not use on pregnant, nursing, or animals on medication. Sensitivities may occur after using ANY pesticide product for a period of time immediately following product application.

FOR EXTERNAL USE ONLY. USE ONLY ON DOGS AND PUPPIES 2 WEEKS OF AGE OR OLDER! For indoor use only. Do not apply this product to pets, houses, or yards.

For Fleas and Ticks:

DIRECTIONS FOR USE

SHAKE WELL BEFORE USING. For external use only. Do not apply this product to pets, houses, or yards.

For indoor use only. Do not apply this product to pets, houses, or yards.
