Usage instructions:
- Use Other Raid® Products To:
  - Centipedes
  - Firebrats
  - Small Flying Moths
  - Stink Bugs
  - Sowbugs
  - Ground Beetles
  - Boxelder Bugs

- Use This Product To:
  - Before Use
    - Peel Label
  - After spraying
    - Set the reusable auto trigger to the off position and hang upside down on the hanger for storage.

Assembly Instructions:
- DIRECTIONS FOR USE:
  - KILL BUGS ON CONTACT
  - KILL BUGS AT THE SOURCE

PRECAUTIONARY STATEMENTS

Warnings:
- Do not spray more than once per week.
- Do not use on edible crops. DO NOT apply to vegetable plants or other plants grown for human or animal consumption.
- Avoid spraying surrounding areas. Plants can be returned to original location when leaves are dry.
- Avoid spraying blossoms if possible. Avoid spraying surrounding areas.
- Do not spray when temperatures exceed 90°F. Over application may cause damage. Repeat treatment as necessary but not more than applications per season.
- Houseflies, Mosquitoes and Small Flying Moths:
  - Spray directly, removing all food-stuffs, utensils and shelf paper from living and eating areas. Put in an area not likely to come in contact with pets, children or food. Plants can be returned to original location when leaves are dry.
- Centipedes, Crickets, Scorpions, Spiders and Stink Bugs:
  - Spray household surfaces, including entry points from outside or neighboring units.
- Sowbugs, Waterbugs:
  - Spray directly to kill listed bugs on contact. Use a Raid® Ant or Roach Killer spray for additional control.
- Webbing Clothes Moths:
  - Spray under kitchen cabinets, behind baseboards, along the bottom of doors and windows, and around structural entry points such as vents and air vents.
- A few methodological points: 1. Determine the presence of pests in the area before spraying. 2. Use the correct product for the specific pest problem. 3. Follow the directions on the label carefully. 4. Do not use this product in or on electrical equipment due to possibility of shock hazard. Some hard surfaces may become damp if this product is applied to them.
ATTACK
BUGS

- Centipedes
- Firebrats
- Small Flying Moths
- Stink Bugs
- Sow Bugs
- Ground Beetles
- Boxelder Bugs

Use This Product To:

BEFORE USE
Read the label to find the right product for your bug problem.
Use a Raid® Ant or Roach Killer spray after spraying. Set the reusable auto trigger for use on compatible refills.

Information:

This product is extremely toxic to fish and aquatic invertebrates. To protect water supplies, do not contaminate fish ponds or apply directly to water.

STORAGE AND DISPOSAL:

On capital “N”

Storage:

Nonrefillable container.

Container Handling:

Do not contaminate water, food, or feed by storage and disposal.

STORAGE AND DISPOSAL:

Do not blow or wash pesticide off the treatment area. This product is highly toxic to bees exposed to direct treatment or nearby untreated vegetation.

Do not spray more than once per week. Do not use on pets. Remove pet bedding and destroy or clean thoroughly.

Precautionary Statements:

For control of ornamental garden insects:

Spot treat resting areas. Insects coming to rest on treated surfaces will be killed.

For use on asters, dahlias, roses, and other flowers with flowers less than 25 microns across.

Use as a spot and crack and crevice control product registered for use on pets before allowing them to return to the treated area. Spray rugs and carpets where infestations are bad. Delicate fabrics should be tested for staining in an inconspicuous area prior to use.

Caution:

Contact with product may result in transient tingling and reddening of the skin. Avoid contact with eyes and mouth.

Dépêchez-vous de faire le travail plus efficacement, pas plus d’effort.

HELPS YOU WORK SMARTER, NOT HARDER, TO FIGHT BUGS.

Disclaimer:

This document is for informational purposes only. RAID is a registered trademark of MCCLURE COMPANY, Inc.

For more details, visit the treatment area. Do not contaminate fish ponds or apply directly to water.
