To Apply to Lumber or Logs: Do NOT use treated wood for construction/repair of bee hives.

APPROPRIATE USES
Exterior Use
Siding, Floor,

For dipping of wood and moldy and is a result of using announcements that extend beyond the statements made on this label. No agent of Contechem Inc. makes no other war-

Preventive treatment: 30.0% primary ammonium solution with

Let the stack sit for a minimum of 30 minutes, then move to an area where the wind is not blowing or you are in a sheltered area to allow proper drying of the wood. Rinse,

For DIP TREATMENT: Stalk the wood to be treated on a suitable holder and convey the stalk into the treatment tank ensuring that the stalks are completely immersed. Bring the stalk from room temperature to 50°F (10°C) before loading into the tank. Use a concentration of 0.3– 0.5% active quaternary ammonium compound. The concentration should be customized to the density of stalks you are treating. Do not allow stalks to stack against each other. Provide ventilation in the tank or ventilate the tank after operation. 

For BRUSH OR SPRAY APPLICATIONS: A 0.5%–2% active quaternary ammonium solution with surfactant should be mixed in a tank or concentration sufficient to fully wet wood strips or staked rods, rinsing with existing hoses by commercial applicators, on interior construction products and surfaces such as furniture, cabinets, shelving, walls, cabinets. Stock and shelf. Use necessary equipment for spray applications. A moderately fine spray, not an aerosol or fog, generally provides the best coverage across all product concentration levels. Apply only to point of runoff.

PREVENTIVE TREATMENT

PELIGRO: SI NO PUEDE LEER EN INGLES, PREGUNTE A SU SUPERVISOR SOBRE LAS INSTRUCCIONES PARA EL USO DE ESTE PRODUCTO. DIRECCIONES PARA EL USO

USE ON EXTERIOR SURFACES
Clean, rinse, and dry surfaces to be treated before applying this product. Mix 1.0 oz. of this product per 1 gallon of water. Use application by brush, roller, sprayer, or similar application device, low-pressure sprayers in aqueous solutions, or in commercial dip tanks.

DO NOT USE ON CARPET: Thoroughly vacuum the carpet to be treated. Mix 1.3 oz. of this product per 1 gallon of water. Spot any inconspicuous areas of carpet or brown areas that are not bleached and skimming

Net Contents: 15 gal. (3)

BRITEWOOD®

SAPSTAIN CONTROL FOR FRESH CUT LUMBER Controls the growth of mold and fungi that may cause discoloration and/or deterioration of freshly cut lumber during storage and shipment. A Concentrate for use as a preventive treatment for Algae, Moss, Mildew and Mold on Concrete, Asphalt, Stucco, Wood Siding and Floors, Walls, Tile & Other Indoor Environments Surfaces Made in the USA

KEEP OUT OF REACH OF CHILDREN (PELIGRO) See prevent control before use. Do not mix with any other pesticides.

FIRST AID

In case of emergency, call a poison control center or doctor for treatment help. Have the product container or label with you when calling a poison control center. Do not give anything by mouth to an unconscious person. Do not give any treatment except as directed by a physician. If INHALED: Move person away from danger. If person is not breathing, call 911 or an emergency number for life support immediately.

If IN SWALLOWED: DO NOT INDUCE VOMITING UNLESS TOLD TO DO SO BY A POISON CONTROL CENTER OR DOCTOR. DO NOT GIVE ANYTHING BY MOUTH TO AN UNCONSCIOUS PERSON.

If skin contact occurs, wash with water, soap and water for 15 minutes. Wash with soap and water for 5–15 minutes. Do not allow food into the mouth. Call a poison control center or doctor immediately for treatment advice. DO NOT INDUCE VOMITING UNLESS TOLD TO DO SO BY A POISON CONTROL CENTER OR DOCTOR. DO NOT GIVE ANYTHING BY MOUTH TO AN UNCONSCIOUS PERSON.

If eye contact occurs, hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

If ON CLOTHING OR SKIN: Take off contaminated clothing and wash skin with soap and water. Remove contaminated clothing and wash before reuse.

Inhalation: If treated with a surfactant, rinse with existing hoses by commercial applicators, on interior construction products and surfaces such as furniture, cabinets, shelving, walls, cabinets. Stock and shelf. Use necessary equipment for spray applications. A moderately fine spray, not an aerosol or fog, generally provides the best coverage across all product concentration levels. Apply only to point of runoff.

Ingestion: DO NOT INDUCE VOMITING UNLESS TOLD TO DO SO BY A POISON CONTROL CENTER OR DOCTOR. Do not give anything by mouth to an unconscious person. DO NOT GIVE ANYTHING BY MOUTH TO AN UNCONSCIOUS PERSON.

SALINITY AND DISPOSAL
Do not contain animals, water, or food, or food storage and disposal.

PESTICIDE STORAGE: Store only in original container. Keep the product under locked storage with a key to be accessible to children under the legal age.

PESTICIDE DISPOSAL: Pellet wastes are actually hazardous. Improper disposal of excess pellets, spray rinse or washwater is a violation of a Federal Law. These wastes cannot be disposed of by use in agricultural crops. They may not be deposited into any water body or drainage ditch or channel or onto any land or water surface or into any underground or surface water conveyance or into any storm drain or ditch or upon land above or below the water surface. The wastes are subject to the same requirements as hazardous waste.
