CLEAN BOSS by Joy

Multi-Surface Disinfectant & Cleaner
KILLS 99.9% of Germs, Fungi, and Mold, and Bacteria
Kills Cold and Flu Viruses
A Fast Powerful Clean
Cuts Grease and Grime

DIRECTIONS FOR USE:
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Heavily soiled surfaces require a pre-cleaning.

To Clean, Deodorize & Remove Allergens:
Spray the product on surface and wipe clean. To remove tough stains let stand a few minutes and wipe clean. For soft surfaces, spray to wet surface and wipe or blot to clean. Always test on inconspicuous area first.

To Disinfect:
For use on Hard Non-porous Surfaces. Spray to thoroughly wet the surface with the product. Surfaces must remain wet for 2 minutes to eliminate bacteria, 3 minutes to eliminate fungi, 3 minutes to eliminate M. bovis BCG (at 70-74°F), and 1 minute to eliminate viruses.* To disinfect Norovirus*, let stand for 4 minutes. On food contact surfaces, no rinse is required. Food products and packaging materials must be removed or carefully protected prior to using this product.

To Sanitize:
Spray to thoroughly wet the surface to be sanitized with the product. Surfaces must remain wet for 30 seconds on hard non-porous surfaces and 2 minutes for soft surfaces. No rinsing required. Food products and packaging materials must be removed or carefully protected prior to using this product. This product is effective as a non-food contact sanitizer on hard, non-porous surfaces against Enterobacter aerogenes and Staphylococcus aureus in 30 seconds.

To Sanitize Pre-Cleaned Food-Contact Surfaces:
Spray to thoroughly wet the surface. Allow surface to remain wet for 60 seconds and air dry.

*Both a Heavy-Duty Cleaner & Disinfectant
Botanically Derived Active Ingredient
Kills Cold and Flu Viruses
Cuts Grease and Grime
Clean in One Step Any Spills or Messes
Odor Eliminating
Great Around Family & Pets

Kills 99.9% of Household Germs:
Staphylococcus aureus, Salmonella enterica, Pseudomonas aeruginosa, Escherichia coli, Enterobacter aerogenes, Vibrio parahaemolyticus, Klebsiella pneumoniae, Haemophilus influenzae, Streptococcus
