DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

SANITIZATION DIRECTIONS TO SANITIZE HARD, NONPOROUS FOOD CONTACT SURFACES: Soil must be removed prior to sanitizing. Wash surface and follow with a potable water rinse. Spray, pour, or apply this product with a cloth, mop, or spray device until surface is thoroughly wet. For spray application, spray 6-8 inches from the treated surface. Treated surface must remain wet for 60 seconds. Wipe or allow to air dry. No Rinse Required.

DISINFECTION DIRECTIONS TO DISINFECT HARD, NONPOROUS SURFACES: Soil must be removed prior to disinfecting. Spray, pour, or apply this product with a cloth, mop, or spray device until surface is thoroughly wet. For spray application, spray 6-8 inches from surface. Treated surfaces must remain wet for 60 seconds. Wipe or allow to air dry. No Rinse Required.
