ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This label and the federal label for this product must be in the possession of the user at the time of pesticide application.
- Read this SLN and the label affixed to the container for OpenSky herbicide before applying.
- Follow all applicable directions, restrictions, and precautions on the container label for EPA Reg. No. 62719-721.
- Use of OpenSky herbicide according to this SLN label is subject to all use directions, restrictions and precautions imposed by the label affixed to the container for OpenSky.

Active Ingredient:
- fluroxypyr 1-methylheptyl ester: ((4-amino-3,5-dichloro-6-fluoro-2-pyridinyl)oxy)acetic acid, 1-methylheptyl ester .................................................. 16.31%
- pyroxsulam: N-(5,7-dimethoxy[1,2,4]triazolo[1,5-a]pyrimidin-2-yl)-2-methoxy-4-(trifluoromethyl)-3-pyridinesulfonamide ................. 1.28%
- Other Ingredients ........................................................... 82.41%
- Total .................................................................................. 100.0%

Contains petroleum distillates

Acid Equivalents:
- fluroxypyr: ((4-amino-3,5-dichloro-6-fluoro-2-pyridinyl)oxy)acetic acid - 11.3% (0.95 lb/gal)

Contains 0.95 lb fluroxypyr acid equivalent per gallon, and 0.107 lb pyroxsulam per gallon.

Keep Out of Reach of Children

CAUTION
Special Conditions and Risks of Use

USE OF OpenSky® herbicide (THE “PRODUCT”) ON TEFF (THE “CROP”) MAY RESULT IN CROP INJURY, CROP YIELD REDUCTION AND/OR CROP LOSS. READ AND UNDERSTAND THESE SPECIAL CONDITIONS AND RISKS OF USE BEFORE USING THE PRODUCT ON THE CROP.

Dow AgroSciences makes the Product available for use in the manner described in this SLN Labeling on the basis that, in the sole opinion of the user, the benefits and utility derived from the use of the Product on the Crop outweigh the potential risk of Crop injury or loss. The decision to use this Product in the manner described in this SLN Labeling must be made by each individual user on the basis of anticipated benefits versus (i) the risk of Crop injury, Crop yield reduction and Crop loss, (ii) the severity of the target pest infestation, (iii) the cost and availability of alternative pest controls, and (iv) any other relevant factors.

By purchasing the Product for use, or using the Product, in the manner described in this SLN Labeling, you acknowledge and accept that:

(1) You assume all risk of Crop injury, Crop yield reduction, and/or Crop loss;
(2) Dow AgroSciences does not make, and does not authorize any agent or representative to make, any representations or recommendations regarding the use of this Product on the Crop other than the statements on this SLN Labeling;
(3) Dow AgroSciences does not make, and does not authorize any agent or representative to make, any warranties, express or implied, with respect to the use of the Product on the Crop and disclaims all warranties, express or implied, including any implied warranties of fitness for a particular purpose or merchantability;
(4) Dow AgroSciences disclaims all liability for any damages, losses, expenses, claims or causes of actions arising out of or relating to inability to sell the Crop, Crop injury, Crop yield reduction and/or Crop loss;
(5) These Special Conditions and Risks of Use supersede any contrary representations or recommendations by Dow AgroSciences, its agents or representatives, and any provisions in or on any Product literature or labeling including any provisions on the label affixed to the Product container.

If these Special Conditions and Risks of Use are not acceptable, the unopened Product may be returned to the seller for a refund or used for a different labeled use in accordance with the label affixed to the Product container. These Special Conditions and Risks of Use are required by Dow AgroSciences and not specified by the U.S. EPA or the State of Oregon.

Environmental Hazards

This product is toxic to fish. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters. Toxic to aquatic organisms and non-target terrestrial plants. This product may contaminate surface water due to runoff of rainwater. This is especially true for poorly draining soils and soils with shallow ground water. This product is classified as having high potential for runoff for several days after application. A level, well-maintained vegetative buffer strip between areas to which this product is applied and surface water features such as ponds, streams, and springs will reduce the potential for contamination of water from runoff of rainwater. Runoff of this product will be reduced by avoiding applications when rainfall is forecasted to occur within 48 hours.

Directions for Use

Refer to the product label for Precautions, Restrictions, Mixing Instructions, and Application Directions.

Apply 1 pint per acre of OpenSky postemergence to the main flush of actively growing weeds. Use sufficient spray volume to provide thorough coverage and a uniform spray pattern. For best results and to minimize spray drift, apply in a spray volume of 10 gallons per acre or more. Apply to Teff from the
tillering to jointing stage (Zadoks scale 21 to 31) of growth according to the weed application timings shown on the main label in the table entitled Weeds Controlled (C) or Suppressed (S). Best results are obtained when application is made to weeds that are actively growing.

Extreme growing conditions such as drought or temperatures near or below freezing prior to, at, or following time of application may reduce weed control and increase the risk of crop injury at all stages of growth.

Use Restrictions
- **Preharvest Interval:** Do not apply within 60 days of harvest.
- Do not make more than one application of OpenSky per year.
- Do not apply more than 1 pint/acre of OpenSky 0.12 lb/acre fluroxypyr, 0.013 lb/acre pyroxsulam) per year.
- Do not allow livestock to graze the treated crop within 7 days following application.
- Do not cut the treated crop for hay within 28 days following application.
- Follow all Worker Protection Standard requirements on the product label for OpenSky.
- Carefully follow precautions and restrictions on the product label for OpenSky.
- For crop rotation restrictions follow the directions for wheat on the main label for OpenSky.
