Metaquat Germicidal Cleaner

Metaquat Germicidal Cleaner is a specially balanced germicidal cleaner containing Metaquat®. It is effective against Staphylococcus aureus and Staphylococcus epidermidis, as well as a wide range of other microorganisms. It is effective in both hard and soft water with no foaming or scaling issues. It is effective as a detergent for cleaning and disinfecting at 2 oz. per gallon (1:64), as a sanitizer at 6 oz. per gallon (1:32), and as a fungicide at 2 oz. per gallon (1:32).

Metaquat Germicidal Cleaner is effective against the following microorganisms: Bacillus anthracis, Bacillus cereus, Bacillus subtilis, B. subtilis var. niger, B. subtilis var. amyloidus, B. subtilis var. proteus, Clostridium botulinum, Clostridium perfringens, C. perfringens var. novyi, Escherichia coli O157:H7, Yersinia enterocolitica, Salmonella enterica, Listeria monocytogenes, Staphylococcus aureus, Staphylococcus epidermidis, Staphylococcus saprophyticus, Staphylococcus sciuri, Streptococcus pyogenes, Streptococcus pneumoniae, Streptococcus viridans, Shigella dysenteriae, and Trichophyton mentagrophytes.

Metaquat Germicidal Cleaner is effective against Trichophyton mentagrophytes (the cause of athlete's foot fungus) on surfaces in areas such as locker rooms, shower and bath areas, exercise areas, dressing rooms, and athletic facilities. It is also effective against Staphylococcus aureus and Staphylococcus epidermidis in hospitals and other medical environments.

Metaquat Germicidal Cleaner is for use in food processing plants, restaurants, cafeterias, hotels, locker rooms, bath & dressing rooms, and heavy-duty cleaning and disinfecting of walls, floors, and other hard, non-porous environmental surfaces. It is effective at 2 oz. per gallon (1:64), as a sanitizer at 6 oz. per gallon (1:32), and as a fungicide at 2 oz. per gallon (1:32).

Directions for Use:

Clean surfaces as needed, using a coarse spray. Apply to treated surfaces for 10-15 minutes. Allow to dry or wipe off with a clean cloth or paper towel. Prepare fresh solution daily or more often if solution becomes visibly dirty, diluted, or soiled.

For effectiveness against Staphylococcus aureus and Staphylococcus epidermidis with Metaquat Germicidal Cleaner at 2 oz. per gallon (1:64)

For effectiveness against Bacillus anthracis with Metaquat Germicidal Cleaner at 2 oz. per gallon (1:64)

For effectiveness against Bacillus cereus, Bacillus subtilis, B. subtilis var. niger, B. subtilis var. amyloidus, B. subtilis var. proteus, Clostridium botulinum, Clostridium perfringens, C. perfringens var. novyi with Metaquat Germicidal Cleaner at 6 oz. per gallon of water (1:32)

For effectiveness against Clostridium tetani, Listeria monocytogenes, Staphylococcus aureus, Staphylococcus epidermidis, Staphylococcus saprophyticus, Streptococcus pyogenes, Streptococcus pneumoniae, Streptococcus viridans with Metaquat Germicidal Cleaner at 2 oz. per gallon of water (1:32)

For effectiveness against Shigella dysenteriae, Yersinia enterocolitica, Salmonella enterica with Metaquat Germicidal Cleaner at 2 oz. per gallon of water (1:64)

For effectiveness against Escherichia coli O157:H7 with Metaquat Germicidal Cleaner at 2 oz. per gallon of water (1:64)

For effectiveness against Trichophyton mentagrophytes with Metaquat Germicidal Cleaner at 2 oz. per gallon of water (1:32)

Strength:

Mineral acids are water soluble and cause no scaling in hard water. This product contains no phosphates.

Metaquat Germicidal Cleaner is effective against Trichophyton mentagrophytes (the cause of athlete’s foot fungus) on surfaces in areas such as locker rooms, shower and bath areas, exercise areas, dressing rooms, and athletic facilities.
