

ACTIVE INGREDIENT

Bromacil* (5-bromo-3-sec-butyl-6-methyluracil)	0.60%
OTHER INGREDIENTS**	99.40%
TOTAL	100.00%

*Equivalent to 0.043 pound per gallon.

**Contains Heavy Aromatic Naphtha

EPA Reg. No. 1769-188-66114

KILLS MOST VEGETATION

KEEP OUT OF REACH OF CHILDREN

CAUTION

GENERAL INFORMATION

ACTI-CIL controls weeds such as foxtail, ryegrass, wild oats, crabgrass, cheatgrass, broomsedge, ragweed, lambsquarters, turkey mullein, johnsongrass, downy brome, puncturevine, bahiagrass, bermudagrass, nutsedge, natalgrass (redtop), smooth brome, bluegrass, purpletop, quackgrass, aster dandelion, dog fennel, goldenrod, plantain and wild carrot.

DIRECTIONS FOR USE

GENERAL PRECAUTIONS AND RESTRICTIONS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For use on plants in non-crop and non-timber areas only. Not for use on crops, timber or other plants being grown for sale or other commercial use, or for commercial seed production, or for research purposes.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. Do not apply this product through any type of irrigation system.

Not to be used in any recreational areas or in or around homes.

Do not make more than 6 applications per year.

Where limited rainfall (usually less than 4 inches) occurs during the active growth period, such as in some areas of the West, ACTI-CIL usually will not provide satisfactory control of hard-to-kill, deep-rooted perennial weeds such as johnsongrass.

Effects are slow to appear and may not become apparent until the chemical has been carried into the root zone of the weeds by irrigation and/or rainfall. Effects on perennials usually progress over a period of several months. The degree of control and duration of effect will vary with the amount of herbicide applied, soil texture, rainfall and other conditions.

Opti-Gro™

Growing Results!

ACTI-CIL™
Weed Killer

ENTRY RESTRICTIONS

Do not enter or allow others to enter the treated area until sprays have dried. Do not apply when weather conditions favor drift from areas treated. Apply this product only as specified on the label.

APPLICATION INSTRUCTIONS

Best results are obtained if ACTI-CIL is applied as a pre-emergence or early post-emergence spray. Apply just before or during the period of active growth of plants to be controlled and when rainfall can be expected for soil activation.

This product works only by root absorption; therefore, it is important for the product to be applied to the soil and not the plant. If dense growth is present, results will be improved if vegetation is removed before treatment. Do not apply when the ground is frozen.

ACTI-CIL can be used to kill most weeds for an extended period of time on non-cropland areas such as loading ramps, fence rows, railroad sidings, storage yards, parking lots, around buildings and industrial plant sites. Apply ACTI-CIL, undiluted, 1 gallon per 1,000 square feet. Do not make more than 6 applications per year.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed or absorbed through skin. Avoid contact with eyes, skin or clothing.

Personal Protective Equipment (PPE)

Applicator and other handlers must wear: Long-sleeved shirt and long pants, chemical-resistant gloves (such as nitrile, butyl, neoprene and/or barrier laminate) and shoes plus socks.

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. When handlers use closed systems (including water-soluble packets), enclosed cabs or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides (40 CFR 170.240(d)(4-6), the handler PPE requirements may be reduced or modified as specified in the WPS.

USER SAFETY RECOMMENDATIONS

Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Users should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters. Do not apply when weather conditions favor drift from areas treated. Apply this pesticide only as specified on the label.

PHYSICAL OR CHEMICAL HAZARD

Combustible. Do not use or store near heat or open flame.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: KEEP THE CONTAINER CLOSED.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your state pesticide or environmental control agency, or the hazardous waste representative at the nearest EPA regional office for guidance.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

FIRST AID

IF SWALLOWED

- Immediately call a poison control center or doctor.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give any liquid to the person.
- Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN

Contains petroleum distillate - vomiting may cause aspiration pneumonia.

See the Material Safety Data Sheet for more information.

For medical or environmental emergencies, call CHEMTREC® at 1-800-424-800.
