First Aid:

If on Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment.

If on Skin: Wash thoroughly with soap and water. Bathe or shower. Change and wash contaminated clothing before reuse. Have container or labeling with you when calling a poison control center or doctor for treatment.

If swallowed: Call a poison control center or doctor for treatment. Do not induce vomiting. Drink 1 to 3 glasses of water if not nauseated. Wash mouth with water. Do not give anything by mouth to an unconscious person.

PRODUCT INFORMATION

Organic BioLink® Surfactant & Penetrant is a low foaming, non-ionic spreader, adjuvant. It provides quick wetting, more uniform distribution, and increases retention of spray by reducing surface tension of the spray droplets.

Organic BioLink® Surfactant & Penetrant is a water-soluble adjuvant that may also be used as an interfacing agent for wettable powders and water-soluble materials. Variations in conditions of use can cause some variation in the amount of Organic BioLink® Surfactant & Penetrant required.

Organic BioLink® Surfactant & Penetrant can be applied to all crops including fruit trees, vines, tree nuts, fruits and vegetables, field and row crops, ornamental trees, shrubs and flowers, containerized plants, and turf. Do not use on roses.

Organic BioLink® Surfactant & Penetrant is not designed for aquatic use.

NOTICE OF WARRANTY - Westbridge warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with the directions under normal conditions of use. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials or the manner of use or application, all of which are beyond the control of Westbridge. In no case shall Westbridge be liable for consequential, special or indirect damages resulting from the use or handling of this product. Westbridge makes no warranties of merchantability or fitness for a particular purpose nor any other expressed or implied warranty except as stated above.

ORGANIC BIOLINK ® SURFACTANT & PENETRANT

WARNING

Organic BioLink® Surfactant & Penetrant should be applied within 36 hours.

Note:

- For optimum results, spray mixes containing Organic BioLink® Surfactant & Penetrant should be applied within 36 hours.
- Do not add adjuvant at a level that would exceed 5% of the finished spray volume.
- Ground or Aerial Application: 1/4 to 2 quarts per 100 gallons of water; can be applied with most pesticides.
- Soil Applications: For use with soil applied pesticides or as a wetting agent, use 1 to 3 gallons per acre.
- Nursery & Container: 1 to 3 ounces per 5 gallons of water.
- Home & Garden: 1 to 3 ounces per 5 gallons of water.

Note: This product has demonstrated excellent plant safety; however, not all species and varieties have been tested. Before treating a large area, treat a small area and observe prior to full-scale application. Do not use on roses.

MIXING INSTRUCTIONS: Prior to pesticide application, clean mixing and application equipment according to pesticide label directions. Adjust spray tank pH to a maximum of 6.0 before adding Organic BioLink® Surfactant & Penetrant to the tank. For wettable powders and water-soluble materials, add Organic BioLink® Surfactant & Penetrant in water before adding pesticide to spray tank. For emulsifiable products, add Organic BioLink® Surfactant & Penetrant after a good emulsion is formed.

Note: For optimum results, spray mixes containing Organic BioLink® Surfactant & Penetrant should be applied within 36 hours.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD OR FEED.
STORAGE: Store in original container. Store in cool, dry area above freezing temperatures.

PRODUCT DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
CONTAINER DISPOSAL: Triple rinse (or equivalent) during mixing and application. Recycle decontaminated containers is the best option of container disposal.

Net Volume:

- 1 Gallon (3.8 L) / 8.8 Lbs. (4.0 Kg)
- 2.5 Gallons (9.5 L) / 22.0 Lbs. (10.0 Kg)
