APPLICATION: Test a small area before using. Remove heavy moss growth prior to application. To reduce the need to walk on the roof, apply JOMAX Roof Cleaner and Mildew Stain Remover using an aerosol sprayer with a wand extension. A tank garden sprayer can also be used. Spray roof surface liberally. Caution – treated surfaces become slippery. Avoid walking on a roof. Work from ladder as much as possible. Wait 5 minutes and rinse well. Moss and heavy mildew stains often require a second application. Spray sensitive ground plants with water before and after application. Clean sprayer with water and baking soda or a non-ammonia cleaner. NOTE: JOMAX Roof Cleaner and Mildew Stain Remover will not remove water run-off stains caused by metallic flashing or gutters.

IMPORTANT: Always follow manufacturer's precautions when using bleach. Use immediately after mixing. Do not allow solution to contact fabrics. Cleaning solution life is 3 hours. Mixture may be applied in areas adjacent to plants, shrubs and trees.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

CAUTION: Harmful if swallowed. Avoid contact with skin, eyes, or clothing. Avoid breathing vapors or spray mist. Protective goggles and gloves or equivalent should be worn. Do not use in confined areas without proper ventilation. Avoid application during windy conditions.

FIRST AID:

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

If swallowed: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

In case of emergency call Rust-Oleum at 847-367-7700. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

Environmental Hazards: This product is toxic to fish and aquatic organisms. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters, or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

STORAGE AND DISPOSAL: Protect pesticide containers from heat and cold. The storage area must be secured, dry, well lit and well-ventilated. Keep pesticide storage areas clean. Clean up any spills promptly. Always store pesticide in the original container. If a leaky container must be contained within another, mark the outer container to identify the contents. Non-refillable container. Do not reuse or refill this container. Offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by incineration or by other procedures allowed by state and local authorities.

LIMITED WARRANTY: This product will perform as claimed when used according to label directions. Directions are as complete as possible but can not encompass all conditions, applications, and/or surfaces beyond manufacturer's control. The contents are warranted to be free of defects for two years from date of manufacturer. All warranties and guarantees are limited to replacement or refunded value of product actually used when supported by proof of purchase. The guarantee is not transferrable. If you have a question, check with your dealer or call Rust-Oleum Corporation.

APLICACIÓN: Pruebe el producto en una superficie pequeña antes de usarlo. Elimine el grueso del musgo antes de la aplicación. Para reducir la necesidad de caminar sobre el techo, use un pulverizador sin aire con una extensión para aplicar el producto. También se puede usar un pulverizador con tanque para jardín. Rocíe generosamente las superficies del techo. Precaución: las superficies tratadas quedan resbaladizas. Evite caminar sobre los techos. Haga la mayor parte posible del trabajo desde una escalera. Espere 5 minutos y enjuague bien. Su vida útil es de 3 horas. Las manchas de musgo y moho más difíciles pueden requerir una segunda aplicación. Rocíe las plantas sensibles con agua antes y después de aplicar la solución. Limpie el pulverizador con agua y bicarbonato de sodio o un limpiador sin amoníaco. NOTA: JOMAX Limpiador de techos y removed or de manchas de mildiu no elimina manchas de escurrimiento de agua causadas por tapajuntas o canaletas de metal.

IMPORTANTE: Siempre tenga presentes las advertencias del fabricante cuando use lavandina. Use la solución inmediatamente después de mezclarla. No permita que la solución entre en contacto con telas. NOTA: JOMAX Limpiador de techos y removed or de manchas de mildiuo elimina manchas de escurrimiento de agua causadas por tapajuntas o canaletas de metal. La mezcla se puede aplicar en zonas adyacentes a plantas, arbustos y árboles.

INFORMACIÓN PREVENTIVA: PELIGROS PARA LOS SERES HUMANOS Y LOS ANIMALES DOMESTICOS

PRECAUCIÓN: Producto nocivo en caso de ingestión. Evite el contacto con los ojos, la piel y la ropa. Evite aspirar los vapores o la neblina de pulverización. Se deben usar anteojos y guantes protectores o equipos equivalentes. No use el producto en espacios reducidos o zonas sin ventilación adecuada. Evite usar el producto cuando esté muy ventoso.

RIESGOS PARA EL MEDIO AMBIENTE: Este producto es tóxico para peces y organismos acuáticos. Para proteger el medio ambiente, no permita que el pesticida entre o se escurra en drenajes, zanjas de drenaje, cunetas o aguas superficiales. La aplicación de este producto con buen tiempo cuando la lluvia no se prevé para las próximas 24 horas le ayudará a asegurarse de que la lluvia o el viento no sopla o laven el pesticida fuera del área de tratamiento. Enjuague el equipo de aplicación sobre el área tratada ayudará a evitar correr a cuerpos de agua o sistemas de drenaje.
