No. 2112

Reefer-Galler® Moth-Tek® Snowwhite™ Moth Ball Packets were specially developed to provide the unsurpassed protection of mothballs without the harsh smell and messy residue. Reefer-Galler® Moth-Tek® combines one of the most effective mothproofing ingredients available with a fresh lavender scent to create a hard-working mothball that actually smells good! These fresh-smelling mothballs are enclosed in breathable paper packets, which allow the active ingredient to work while protecting you and your clothes from messy flakes and residue.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
IMPORTANT: Keep out of reach of children. Do not place in areas accessible to children.
Use Restrictions: This product can treat up to 37.5 cubic feet. Kills clothes moths and carpet beetles and their eggs and larvae in clean, airtight containers, such as chests, trunks, and garment bags. Do not use dry cleaning bags, garbage bags or other containers that allow vapors to escape into occupied rooms. This product can damage some plastics. Use only in polyethylene or polypropylene containers. p-Dichlorobenzene should not be mixed or placed in contact with other moth preventive chemicals or placed on painted, polished or plastic surfaces.
Pre-Application Directions: Clean all fabrics before storage. Prevents moth infestation regardless of fabric type.
Application Directions: Calculate the volume to be treated in cubic feet by multiplying the height times the width times the depth of the space. Four packets can treat about 3 cubic feet of storage space. Examples of the amount of product required for proper treatment are listed below:

- 4 packets Small Storage Box (3 cu. ft.)
- 14 packets Average Garment Bag (12 cu. ft.)
- 18 packets Large Trunk (15 cu. ft.)

The proper treatment of larger volumes may require the use of additional containers of packets. To insure protection of your clothes, use the recommended amount of packets. Do not remove the mothballs from the packets. Scatter packets throughout the storage area. Storage containers should be tightly closed at all times to maximize protection. Keep storage containers tightly closed at all times. Replace when mothballs have dissipated. Odor quickly vanishes when articles are aired.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.
Pesticide Storage: Store only in original container, in a cool dry place inaccessible to children and pets. Keep container closed and away from other chemicals.
Pesticide Disposal and Container Handling: Nonrefillable container. Do not reuse or refill container.
If empty: Place in trash or offer for recycling if available.
If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals
WARNING: Causes substantial but temporary eye injury. Harmful if swallowed, absorbed through skin, or inhaled. Causes eye, skin, and respiratory tract irritation. Do not get in eyes or on clothing. Avoid contact with skin. Avoid breathing vapors. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.
NOTICE: This product contains a chemical known to the State of California to cause cancer.

FIRST AID

If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
If swallowed	<ul style="list-style-type: none"> • Call poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything by mouth to an unconscious person.
If on skin or clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
If inhaled	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. • Call a poison control center or doctor for treatment advice.

HOT LINE NUMBER

Have the container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact the National Pesticide Information Center (NPIC) at 1-800-858-7378 for emergency medical treatment information.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage.

PHYSICAL OR CHEMICAL HAZARDS: Combustible. Do not use or store near heat or open flame.
