EPA Reg. No. 2724-495-82545 EPA Est No. 82545-NV-001

ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

GENERAL INFORMATION

This pesticide product is to be used as a cattle feed-through pesticide for the control of hor flies. All feed ingredients listed on this product label must adhere to the specifications and limits (if applicable) ascribed by the Food and Drug Administration (FDA) for cattle feed use when mixed with this pesticide product. This product contains ethoxyquin, a preservative. The amount of ethoxyquin may vary according to the individual manufacturer's formulation and will not exceed the 150 ppm maximum limit established for ethoxyquin by FDA, per 21 CFR 573.380.

Manufactured BY:

New Generation Supplement 1700 US 50 East Silver Springs NV 89429

Feed Ingredients

Cane molasses, ground flaxseed, flaxseed oil, soybean meal, dicalcium phosphate, monocalcium phosphate, processed grain by-products, zinc sulfate, manganese sulfate, basic copper chloride, sodium selenite, ethylenediamine dihydriodide, cobalt carbonate, vitamin A supplement, vitamin D3 supplement, vitamin E supplement.

This product contains ethoxyquin, a preservative.

**Contains no prohibited animal by-products in accordance with FDA regulation 21 CFR 589.2000

FEEDING AND MANAGEMENT INSTRUCTIONS

Feed this product to cattle only. When used as directed, this product will provide sufficient (S)-methoprene insect growth regulator to prevent the emergence of adult horn flies from manure of treated cattle. Existing adult horn flies will not be affected. Start feeding before horn flies appear and continue use until cold weather marks the end of the horn fly season. Allow free choice to cattle. Cattle should consume an average of 0.8 ounces of this product per 100 lbs. of cattle body weight per day, which is equivalent to 8 ounces per day for a 1,000 pound cow.

To Open: Remove top protective sheet.

- 1. Assure cattle are not starved for nutrients prior to feeding this product.
- This product contains added copper. Do not feed to cattle in close proximity t sheep or other species that have a low tolerance to supplemental copper.
- 3. Offer cattle 1 block of this product for every 15-25 head of cattle.
- Remove all other self-limiting nutritional supplements while the cattle are consuming this product.
- Locate this product where cattle congregate (watering, loafing, shade areas).
- 6. Replenish this product on a regular basis as needed.
- If intake of this product is below 0.8 ounces per 100 pounds cattle body weigh
 per day, increase the number of feeding locations and/or change location(s) to
 areas more frequented by cattle.
- If intake of this product is above 0.8 ounces per 100 pounds cattle body weight per day, reduce the number of feeding locations and/or change location(s) to areas less frequented by cattle.
- Introduction of this product after adult horn fly infestation is established will
 require treatment of cattle with adulticides if elimination of adult fly population
 is desired.

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage or disposal.

Storage: Store this product in a cool, dry place

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Container Handling: Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available, or puncture and dispose of in a sanitary landfill or by incineration or if allowed by state and local authorities by burning. If burned, stay out of smoke.
