PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals

CAUTION: May be harmful if swallowed or absorbed through the skin because this product reduces the clothing ability of blood and causes bleeding. Keep away from children, domestic animals and pets. Do not get in eyes, on skin, or on clothing. Anyone who retrieves carcasses or unused bait following application of this product must wear gloves. All handlers (including applicators), must wear long sleeved shirt and long pants, shoes plus socks, and gloves.

USER SAFETY REQUIREMENTS: Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

FIRST AID: Have this label with you when obtaining treatment advice. If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. If on skin or clothing: Take off contaminated clothing. Rinse skin with plenty of cool water for 15-20 minutes. Call a poison control center or doctor for treatment advice. If inhaled: Move person to fresh air. If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN: Contains, chlorophacinone, an anticoagulant. For humans that have ingested this product, or have obvious poisoning symptoms (bleeding) or prolonged prothrombin times, give Vitamin K₁ by intramuscular or oral administration. Check prothrombin time every 3 days until values return to normal.

TREATMENT FOR PET POISONING: If animal eats bait, call veterinarian at once.

NOTE TO VETERINARIAN: Anticoagulant Chlorophacinone: For animals ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times), give Vitamin K₁.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and wildlife. Dogs and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten the bait. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of wastes. Runoff also may be hazardous to aquatic organisms in water adjacent to treated areas.

ENDANGERED SPECIES CONSIDERATIONS: Do not use this product within prairie dog towns in the range of the black-footed ferret without first contacting endangered species specialists. U.S. Fish and Wildlife Service, Denver Regional Office. This pesticide should not be used within one mile of active dens of the San Joaquin Kit fox without first contacting endangered species specialists, U.S. Fish and Wildlife Service, Portland Regional Office. This pesticide should not be used within one mile of active dens of the San Joaquin Kit fox without first contacting endangered species specialists, U.S. Fish and Wildlife Service, Portland Regional Office.

TR TREATMENT FOR ENDANGERED SPECIES CONSIDERATION: This pesticide is toxic to fish and wildlife. Do not use this product within one mile of active dens of the San Joaquin Kit fox without first contacting endangered species specialists, U.S. Fish and Wildlife Service, Denver Regional Office. Do not use this product near wildlife refuges, migratory bird habitats, or areas designated by the U.S. Fish and Wildlife Service as critical wildlife habitats.

DIRECTIONS FOR USE

Application Directions: This product contains anticoagulant chlorophacinone that is toxic to fish and wildlife. Distinguish your application and any other uses of this product from the aquatic environment. Do not use this product near wildlife refuges, migratory bird habitats, or areas designated by the U.S. Fish and Wildlife Service as critical wildlife habitats. Do not contaminate water, food or feed by storage or disposal. Do not use this product on or in waters of the United States, including waters of the States, or on fish or wildlife. Do not contaminate water by storage or disposal.

Storage and Disposal:

Conditioning:

If burned, stay out of smoke.

Pesticide Storage:

Storage in original container in a cool, dry place inaccessible to children and pets.

Pesticide Disposal:

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Container Handling: This is a nonrefillable container.
