PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER. EXTREMELY HAZARDOUS LIQUID AND VAPOR UNDER PRESSURE. CAUSING BURNING OR IRITATING, CORROSIVE, CAUSES SKIN BURNS AND INJURY, WHICH MAY BE DEATHTHEL. DO NOT BREATH OR SWALLOW. INHALATION MAY CAUSE SEVERE ACUTE ILLNESS OR DEATH. HUMAN, OR BRAIN INJURY. DO NOT GET IN EYES, ON SKIN OR IN CLOTHING.

NOTE: CHLOROPHYLL MAY BE IRRITATING TO THE UPPER RESPIRATORY TRACT AND EYES. ACTUAL OR POTENTIAL IRRITATION TO THE EYES, PRODUCING TEARING, IF THESE SYMPTOMS OCCUR, LEAVE THE FUMIGATION AREA IMMEDIATELY.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Some materials that are chemical-resistant to this product are listed below. For more options, follow the instructions for Category H or the chemical-resistant category selection chart. PPE constructed of aramid, neoprene, and chlorinated polyethylene provide shorter contact to splatter protection against agents listed in this product. Longer-term protection is provided by PPE created of Vino, Tetelon, and EVA, select laminate (for many materials). This product is manufactured by Ultra-Gard or Shinalite materials manufactured by Hysol. Where chemical-resistant materials are required, leather, canvas, or cotton materials offer protection from this product and must not be worn as the last shield of protection when contact with this product is possible.

When performing tasks with 20 potential for contact with liquid fumigant, all handlers (including applicators) must:

- Wear long-sleeved shirt, long pants, shoes and socks.
- Not wear jewelry, goggles, tight clothing, chemical-resistant glove, rubber protective clothing, or rubber boots when handling. Methyl bromide can be trapped inside clothing and cause skin injury.
- Handle with no potential for contact with liquid fumigant (e.g., smokers) may wear cotton, leather, or other non-chemical-resistant gloves. If such gloves are exposed to liquid fumigant, they must immediately be removed and disinfected.

When working with potential for contact with liquid fumigant, all handlers (including applicators) must wear:

- Acetate, cotton, or nylon gloves.
- Chemical-resistant glove (e.g., leather gloves, and)
- Chemical-resistant overgarment with socks.

In addition, when an air-purifying respirator is required under this label's Directions for Use, Protection for Handlers, Respiratory Protection and Eye Wear T.ocsen, fenders, handlers (including applicators) must wear:

- A NIOSH-certified full-facepiece air-purifying respirator with cartrdges certified by the manufacturer for protection from exposure to methyl bromide at concentrations up to 5 ppm (e.g., a 3M P100 air-purifying respirator equipped with 3M Model 6000 Organic Vapor/Particulate Cartridge).

IMPORTANT: A self-contained breathing apparatus (SCBA) is not permitted for routine handler tasks. Its requirement is an emergency when corrective action is needed to reduce air contaminations to acceptable levels, wear an SCBA. Exposure-only SCBA respirators must not be used by handlers for responding to emergencies. In addition wear PPE for potential contact with liquid fumigant.

See label booklets for additional Precautionary Statements.

NOTE: Contains methyl bromide, a substance which harms public health and the environment by destroying ozone in the upper atmosphere.

RESTRICTED USE PESTICIDE
DUE TO ACUTE TOXICITY
For retail sale is only to be certified applicators or persons under direct supervision and only for those uses covered by the certified applicator’s certificate.

Tri-Con 50/50
Pre-Plant Soil Fumigant
ACTIVE INGREDIENTS:
Methyl Bromide. ........................................ 50.0%
Chloroprene .................................................. 40.7%
OTHER INGREDIENTS: ...................................... 0.3%
TOTAL: .......................................................... 100.0%
This product weighs 15.35 lbs. at 60°F (16°C).

KEEP OUT OF REACH OF CHILDREN

DANGER
POISON

If used as intended to eliminate, ensure an effective pest control effort is maintained as detailed in the label.

IN ALL CASES OF OVEREXPOSURE, GET MEDICAL ATTENTION IMMEDIATELY. TAKE PERSON TO DOCTOR OR TO AN EMERGENCY TREATMENT FACILITY.

FIRST AID

IF INHALED:

- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance; then give artificial respiration, preferably by mouth-to-mouth.
- If possible, call a poison control center or doctor for further treatment advice.

IF SMELLED:

- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING:

- Take off contaminated clothing.
- Wash skin immediately with plenty of water for 15-20 minutes.

IF IN EYES:

- Hold eyes open and rinse slowly with plenty of water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes; then continue rinsing eyes.
- Call a poison control center or doctor for further treatment advice.

NOTE: Have person consult a doctor or take with you when calling a poison control center or doctor, or going for treatment.

EMERGENCY PHONE NUMBER: Chemtread 1-800-424-9300

NOTE TO PHYSICIAN

Early symptoms of overexposure to methyl bromide are dizziness, headache, nausea and vomiting, weakness, and collapse. Severe effects may develop in 2 to 4 hours after exposure, accompanied by respiratory distress, hypoxia, and death. Severe effects may result in brain damage, staggering gait, and mental incoherence, with possible recovery after a period of no exposure. After exposure levels suggest the occurrence, but not the degree, of exposure. Treatment is symptomatic.

DIRECTIONS FOR USE
Restricted Use Pesticide

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a manner inconsistent with its labeling. Do not allow the product to be harmful to others, either directly or through drift. Only label-directed days to the application point and equipment. The start of the application until the entry restriction period ends, in the buffer zone during the buffer zone period. For any requirements specific to your State or Tribe, contact the agency responsible for pesticide regulation.

Agricultural Use Requirements
Use this product only in accordance with its labeling and with the Federal Protection Standard, 40 CFR 172, for label holders under "Agriculture Use Requirements" in the Directions for Use section for information about this standard.

Storage and Disposal

DO NOT DISCARD IN WASTE, FOOD, OR FEED BY STORAGE OR DISPOSAL.

Pesticide Storage: Store in a dry, cool, well-ventilated area under lock and key. Place in a pesticide storage area.

Pesticide Disposal: Pesticide wastes are toxic. Improper disposal of excess pesticide, empty containers, or rinsates is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Region Office for guidance. When a container is partially full, and there is no further requirement for the product, return the container to the registrant or distributor. Remove safety cap and valve protection baner before shipping container.

Container Handling: Store cipxides upright, secured to a wall or shelf, or prevent tipping. Do not subject cylinders to rough handling or mechanical shock such as dropping, bumping, shaking, or striking. Do not use sharp objects, tools, swab similar device to 2 corded cylinders, transport cylinders using hand truck, fork truck or other device in which the cylinder can be firmly secured. Do not remove valve protection baner and safety cap until immediately before use. Remove safety cap and valve protection baner when cylinder is not in use.

Return of Containers: Containers are the property of the registrant or distributor and must be returned promptly after use. Do not ship cylinders without safety caps or valve protection baners.

Refillable Container: Only the registrant or distributor is allowed to refill this container. This container can be refilled with pesticide only. Do not reuse this container for any other purpose. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller.

Container Disposal: To clean the container before final disposal, remove any outstanding liquid from the container using dry air pressure if necessary. Allow container to aerate for at least 5 days. After aerating, wash container using hot water, then return container to qualified refiner or distributor as directed by State or local regulations.

See label booklets for complete Directions for Use.
