POLYSUL™ Summer & Dormant Spray Concentrate

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: First aid of exposed, intubated, or absorbed through skin. This product is corrosive to flesh because of its caustic alkaline nature and it causes irreversible eye damage and skin burns. Do not breathe dust, vapors, mist, or gas in eyes, on skin or on clothing. Wear goggles or face shield, protective clothing, and rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking, and using tobacco. Remove contaminated clothing and wash before reuse. Keep children and pets out of treated area until sprays have dried.

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not contaminate water when disposing of equipment. Do not apply when weather conditions favor drift from treated areas. Do not apply where runoff is likely to occur.

PHYSICAL OR CHEMICAL HAZARDS

Do not mix with fertilizers, acid cleaning compounds or other acidic household chemicals. May give off highly toxic and extremely flammable hydrogen sulfide gas if mixed with acid.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For household use only. SHAKEN WELL BEFORE USING.

USE PRECAUTIONS: Do not spray straight or diluted material against any painted surface. Walls can be protected with heavy paper or a tarpaulin. Do not use on overgrown susceptible to rust injury. Do not use on plants or trees immediately following an oil spray. Do not spray excessive amounts on the plant surface. Do not apply where residue may be absorbed. For best results, check the Poolistrip and follow the directions on the label. Do not apply when temperature is excessively high (over 90 degrees F); application should not be made at such time.

DILUTIONS—SHAKEN WELL BEFORE USING

A. (Dormant) — 1 cup POLYSUL per gallon of water.
B. (Dormant Combination Spray) — 1/2 cup POLYSUL plus 1/2 cup Lilly Miller Superior Type Spray Oil per gallon of water.
C. (Spring and Summer Spray) — 4 teaspoons POLYSUL per gallon of water.

DORMANT SPRAY (after leaves fall, buds dormant)

SPRING AND SUMMER SPRAY CHART

<table>
<thead>
<tr>
<th>Crops and Pests</th>
<th>Time of Application</th>
<th>Dilation to Use</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. ROSES, FLOWERS, SHRUBS (deciduous)</td>
<td>EARLY SPRING: Just before buds break.</td>
<td>A</td>
</tr>
<tr>
<td>Powdered Mildew, Rust, Mites</td>
<td>Spray thoroughly to wet leaves, stems, and surrounding soil, weeds and trash. Do not use on apricots.</td>
<td></td>
</tr>
<tr>
<td>2. Same as No. 1, plus Apple Scab, Mites, Scale</td>
<td>Same as No. 1</td>
<td>B</td>
</tr>
<tr>
<td>3. PEACHES</td>
<td>1st Spray—Late fall before winter storms.</td>
<td>A</td>
</tr>
<tr>
<td>Leaf Cuff</td>
<td>2nd Spray—Earliest January; trees fully dormant.</td>
<td></td>
</tr>
<tr>
<td>3rd Spray—Early spring, just before buds break. This spray is most essential.</td>
<td>B</td>
<td></td>
</tr>
<tr>
<td>4. BERRIES (Cane)</td>
<td>EARLY SPRING: Just before buds break.</td>
<td>A</td>
</tr>
<tr>
<td>Anthracnose, Rust</td>
<td>SPRING: Again in full as leaves turn color.</td>
<td></td>
</tr>
<tr>
<td>5. BERRIES (Cane)</td>
<td>FALL: After old leaves removed. Spray again in spring—see Spring and Summer Spray Chart</td>
<td>A</td>
</tr>

</table>

6. ROSES, FLOWERS, ORNAMENTALS | GROWING SEASON: When foliage appears. Spray thoroughly every 4 days. When weather is warm and dry, spray at 10-day intervals. | C |
| Powdery Mildew, Rust, Mites | Repeat after rains. Note: On tender new growth — use 1/2 of dilution C. | |
| 7. PEACHES, CHERRIES (Ornamental) | GROWING SEASON: When blossoms show color, spray every 7 to 10 days until under control. Spray more often during moist warm weather. | C |
| Brown Rot | SPRING: Apply when leaves are separating. Just exposing bud cluster. Repeat at 7-day intervals for 3 or more sprays. When in bloom, wait until 3/4 of petals have fallen before spraying. | |
| 8. APPLES, PEARS | SPRING: 1st Spray—After vines are trained. Spray before buds break. New buds in the green stage. | A |
| Scal, Powdery Mildew | 2nd Spray—When fruiting arms are about 1 ft. long, before blossoms have opened. | C |

STORAGE AND DISPOSAL

Pesticide Storage: Store this product in its original container and keep in a locked storage area out of reach of children and domestic animals. Close cap tightly after each use, keep from freezing. Pesticide Disposal: If empty, do not reuse this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or the National Pesticide Information Center at 1-800-854-7378. All other inquiries: info@lillymil.com
