PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: EXTREMELY HAZARDOUS LIQUID AND VAPOR UNDER PRESSURE. FATAL IF INHALED OR INGESTED. CORROSIVE CAUSES SEVERE BURNS AND IRREVERSIBLE EYE DAMAGE. WHICH MAY HAVE A DELAYED ONSET. DO NOT BREATHE VAPOR OR DUST. EVALUATION MAY CAUSE SEVERE ACUTE ILLNESS OR DELAYED LUNG, NERVOUS OR SKIN INJURY. DO NOT SET IN EYES, ON SKIN OR IN MOUTH.
NOTE: CHEMICALS MAY BE IRITATING TO THE UPPER RESPIRATORY TRACT. AT EVEN LOW LEVELS CAN CAUSE PAINFUL IRRITATION TO THE EYES. PRODUCING TEARIG IF THESE SYMPTOMS OCCUR, LEAVE THE FUMIGATION AREA IMMEDIATELY.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Some materials that are carcinogenic/carcinogenic to the product are listed below. For more options, follow the instructions for Category II on the chemical-resistance category selection chart. PPE constructed of neoprene, neoprene, and chlorinated polyethylene provide short-term contact or submersion protection against liquid to this product. Long-term protection is provided by PPE constructed of Viton, fluoros, and EPDM lined laminates (for example, composite fabric made by DuPont or Goodyear). Gloves manufactured by North. Where chlorinated-resin materials are required, latex, canvas, or cotton materials after protection from this product and must not be worn as the sole article of protection when contact with this product is possible.
When performing tasks with ISD potential for contact with liquid fungicidal, all handlers (Including applications) must:
- Wear long-sleeved shirt, long pants, shoes and hose.
- Not wear jewelry, gogglers, long clothing, chemical-resistant gloves, rubber protective clothing, or rubber shoes when handling. Wet gloves cannot be trapped inside clothing and cause skin injury.
- Handle with no potential for contact with liquid fungicidal [e.g. shovels] may wear cotton, leather, or other porous, non-chemical-resistant gloves. If each glove is exposed to liquid fungicidal they must be immediately removed and discarded.
When performing tasks with potential for contact with liquid fungicidal, all handlers (including applications) must wear:
- Long-sleeved shirt and long pants.
- Chemical-resistant gloves.
- Protective eyewear (Do not wear gogglers), and
- Chemical-resistant boots with sock.
In addition, when an air-purifying respirator is required under the federal's list for Resource Protection for Tier 1 and Tier 2 Situation, handlers (including applications) must wear:
A NIOSH-approved disposable air-purifying respirator with cartridges certified by the manufacturer for protection from exposure to methyl bromide at concentrations up to 0 ppm, a 3M air-purifying respirator equipped with 3M Model 6050 (Organic Vapor/Particulate) cartridge.
IMPORTANT: A face/earthen respirator with Cartridges certified by the manufacturer for protection from exposure to methyl bromide at concentrations up to 0 ppm is also required.

RESTRICTED USE PESTICIDE
DUE TO ACUTE TOXICITY
For a list of labels to use, as certified applications or persons under direct supervision and only for those uses covered by the certified applicator's certification.

Tri-Con 57/43
Pre-Plant Soil Fumigant
ACTIVE INGREDIENTS:
Methyl Bromide...
Chloropropionite...
OTHER INGREDIENTS...
0.2%...
TOTAL...
100%
This product weighs 11.3 lb. at 89°F (29°C).

KEEP OUT OF REACH OF CHILDREN
DANGER
POISON

If used as required, this product does not contain any ingredient that is listed on the local or state Pesticide Registration List.

IN ALL CASES OF OVEREXPOSURE, GET MEDICAL ATTENTION IMMEDIATELY.
TAKEN TO A DOCTOR OR TO AN EMERGENCY TREATMENT FACILITY.

FIRST AID

IF INHALED:
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
- Call a poison control center or doctor immediately for further treatment advice.

IF SWALLOWED:
- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

IF IN EYES:
- Hold eyes open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing many times.
- Call a poison control center or doctor for treatment advice.

Note: Have the product container or label with you when calling a poison control center or doctor or going for treatment.

EMERGENCY PHONE NUMBER: Chemtrec 1-800-424-9300

NOTE TO PHYSICIAN
Early symptoms of overexposure in methyl bromide are dizziness, headache, nausea and vomiting, weakness, and collapse. Long-term effects may develop in 2 to 4 hours after exposure, accompanied by nausea vomiting. These effects are the major causes of death. Residual embroilments result in short lived vision, staggering gait, and mental inbalance, with probable recovery after a period of no exposure. Blood levels normally suggest the occurrence, but not the degree, of exposure. Treatment is symptomatic.

DIRECTIONS FOR USE
Restricted Use Pesticide
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only handlers may be in the application area from the start of the application until the entry restricted period ends, and in the buffer zone during the buffer zone period. If any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

Agricultural Use Requirements
Use the product only in accordance with labeling and with the Worker Protection Standard, 40CFR190. Refer to labeled inside under "Agricultural Use Requirements" in the Directions for Use section for information about this standard.

Storage and Disposal
DO NOT CONTAMINATE WATER, FOOD, OR FEED.
BY STORAGE OR DISPOSAL.

Pesticide Storage: Store in a dry, cool, well-ventilated area under lock and key to prevent accidental use and abuse.

Pesticide Disposal: Pesticide wastes are toxic, improper disposal of excess quantities, empty containers, or residue is a violation of Federal Law. If these wastes cannot be disposed of in a safe manner according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. When a cylinder is partially full, and there is no further requirement for the product, return the cylinder to the manufacturer or distributor. Replace safety cap and valve protection by an immediate container before shipping. Container Handling: Shipped cylinders should be stored in a secure location and out of reach of children.

See label booklet for complete Directions for Use.
