BLACK ALGAETRINE® works best when added by itself directly to pool water; therefore, it should not be mixed with soap or cleaners or premixed with other water treating chemicals.

DIRECTIONS FOR USE:
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. BLACK ALGAETRINE controls the growth of problem algae in swimming pools. Brush algae spots prior to application. If necessary brush once each day for two days following application. Before applying adjust pool water pH to 7.2-7.8 determined by a suitable test kit. BLACK ALGAETRINE comes concentrated; therefore, dilute the proper dosage of the concentrate with at least nine parts of water. (i.e. 6.9 oz of product to 94 oz of water). Apply this diluted dosage through a plastic watering can into the water around the edge of the pool.

VISIBLE ALGAE GROWTH: 12 oz. of BLACK ALGAETRINE per 10,000 gallons of pool water. Settled algae debris may be removed by vacuuming.

VERY DIRTY POOL WITH HEAVY ALGAE GROWTH: First vacuum, clean, and scrub walls. Apply dose of 12 oz. of BLACK ALGAETRINE per 10,000 gallons of pool water. Vacuum to remove algae debris.

MAINTENANCE Dose: (Free of visible algae) Apply 6 oz. of BLACK ALGAETRINE per 10,000 gallons of pool water every 5 to 7 days. NOTE: if high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

TO ESTIMATE POOL CAPACITY
Square or Rectangular Pools: L x W x D x 7.5 = Gallons
Circular or Elliptical Pools: L x W x D x 5.9 = Gallons

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: Corrosive. Causes (reversible) eye damage and skin burns. Harmful if swallowed. May be fatal if absorbed through the skin. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

FIRST AID:
If In Eyes: Hold eyelids open and rinse slowly with water for 15 – 20 minutes. Remove contact lenses, if present, after 5 minutes then continue rinsing eye. Call poison control center or doctor for treatment advice.
If Swallowed: Call a poison control center immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

ENVIRONMENTAL HAZARDS:
This product is toxic to fish and aquatic organisms.

STORAGE AND DISPOSAL:
Store in original container in a locked storage area inaccessible to children and persons unfamiliar with its use. Do not reuse empty container. Wrap container and discard in trash.

ALGAEocide
FOR SWIMMING POOLS
CONTROLS BLACK ALGAE
AND OTHER RESISTANT FORMS

ACTIVE INGREDIENTS:
- Copper as elemental 3.07% (50% Cu, 40% Cu₂⁺, 10% Cu₃+)
- Dimethyl benzyl ammonium chloride 26.34%
- Other Ingredients: 70.59%
Total: 100.00%

BLACK ALGAETRINE contains 0.26 lbs. of elemental copper per gallon. *From Mixed Copper Ethanolamine Complexes.
