GLB POOLCARE

Small 1" Tablets

STABILIZING CHLORINATING CONCENTRATE

ACTIVE INGREDIENT:
Trichlor-o-Triazinetrione...........99%
OTHER INGREDIENT.................1%
TOTAL..................................100%

KEEP OUT OF REACH OF CHILDREN
DANGER

Contact with or improper use may cause eye, explosion or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not add water to this product. Add only to water. Do not use powder or other dispersing agent in water for an extended period of time. If it contains a tablet or tablet mixture, Do not mix this product with a small amount of water. Only add directly to your pool. Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled or absorbed through skin, harmful if swallowed. Read all precautionary statements on back label and first-aid statements in use.

FIRST AID:
If in eyes: flush eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes; then continue rinsing eye. Call a poison control center or doctor for treatment advice. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. If swallowed: Call a poison control center or doctor immediately for treatment advice. If swallowed, have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a physician or poison control center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. In case of emergency call: 1-800-454-6911

DIRECTIONS FOR USE:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Reentry into treated swimming pools is prohibited above chlorine levels of 4 ppm.

FOR CONTINUOUS DAILY CHLORINATION:
Before the first use of this product, be sure to take the following steps:
1. Adjust the pH value of the pool water to between 7.2 and 7.8 as determined by a suitable test kit and adjust the Total Alkalinity to 100 ppm.
2. Stabilize the pool water to at least 30 ppm with GLB® Stabilizer as directed on the container label. Regular use of this product far daily chlorination will provide any needed makeup stabilizer.
3. Superchlorinate (shock treat) the pool water to oxidize organic contaminate. Follow the label directions. Before using the pool, be certain the chlorine level returns to 1.0 – 1.5 ppm.
4. Once you complete 1, 2, and 3 above, use this product to maintain the free and total available chlorine level at a safe and efficient 1.0 – 1.5 ppm at all times as determined by the daily or more frequent use of a suitable test kit.

5. Using a feeder, floater or skimmer dispenser, immerse one tablet (or as many as required to continuously maintain the safe free available chlorine level) for each 450 to 900 gallons of pool water.

NEVER ADD THESE TABLETS DIRECTLY INTO THE SWIMMING POOL AS DISCOLORATION OF THE POOL LINER OR FINISH MAY OCCUR.

Superchlorinate or shock treat your pool water at least twice immediately (more often in warmer climates) during hot weather and peak baking loads using a GLB® Shock. Failure to shock treat regularly can result in the growth of algae in your pool.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: Corrosive. Causes irreversible eye damage. Causes eye and skin burns. May be fatal if inhaled or absorbed through skin, harmful if swallowed. Read all precautionary statements on back label and first-aid statements before use.

• Do not allow this product to contact other water treatment products. If used in a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products before putting this product in the skimmer.
• Avoid spilling this product.
• Exposure to heat can cause this product to rapidly decompose, leading to fire, explosion, and the release of toxic gases.
• Store in a cool, dry, well ventilated area away from heat or open flame.
• Strong oxidizing agent. This product can increase fire intensity.
• Keep away from heat and from flame and burning material. Remove if possible.

ENVIRONMENTAL HAZARDS:
This pesticide is toxic to fish and aquatic organisms.

STORAGE & DISPOSAL:
Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment.
