Clinging Disinfectant Cleaner

Clinging Disinfectant Cleaner is a ready-to-use clinging foam formulation designed for cleaning and disinfecting of walls, patios, shower stalls, door knobs and other similar hard nonporous surfaces. CDC-10 is for use in hospitals, schools, offices, manufacturing facilities, restaurants, bars, cafeterias and food processing plants. This product is not to be used as a terminally surface high level disinfectant on any surface or instrument that (1) is intentionally directly into the human body, (2) is in contact with the bloodstream or normally sterile areas of the body, or (3) contacts intact mucous membranes but which does not necessarily penetrate the blood barrier or otherwise enter normal body areas of the body. This product may be used to prevent or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection procedures.

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Five-Minute Stabilized Action: For five-minute disinfector activity against the listed bacteria and viruses.** In the presence of 5% organic soil, 1. Spray a product with unlabeled CDC-10 until surface is covered with foamy foam. 2. Allow product to sit in wet surface for two minutes. 3. Wipe off with a clean damp cloth or sponge. 4. Rinse with water, preferably with water. Predominate cleaning is required for heavily soiled areas. Before using this product in food processing areas, all food products and packaging materials must be removed from the area or handled properly. After use, all food contact surfaces must be cleaned and sanitized. Do not use this product to clean or sanitize electrics, glassware, chokers, or cookware.

For Foaming Action: 1. Spray a product with unlabeled CDC-10. 2. Allow product to sit in wet surface for five minutes. 3. Wipe off with a clean damp cloth or sponge.

CDC-10 retains its disinfectant activity even when diluted 1:10. Bactericidal Activity: 1. Agitate CDC-10 at 1:2 ratio of one gallon of water (1:10) with a thos gun, mop, or cloth. 2. Scrub and allow product to sit in wet surface for 10 minutes. 3. Rinse thoroughly with water. Predominate cleaning is required for heavily soiled surfaces.

** KILLS HEPATOITIS B VACCINE PROTECTED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling by inappropriate caregivers/objects with blood or body fluids and in which the surfaces are likely to be soiled with blood or body fluids can be associated with the potential for transmission of Hepatitis B Virus (HVB) and Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS). SPECIAL INSTRUCTIONS FOR CLEANING AND PERSONAL PROTECTION: Exposure to blood or body fluids must be avoided by use of barrier protection such as gloves or other impermeable gloves. Face shields and impermeable gowns must also be worn in handling of blood or body fluids may occur.

CLEANING PROCEDURE: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of the disinfectant.

CONTACT TIME: Leave surfaces wet for 5 minutes.

DISPOSAL OF INFECTIOUS MATERIAL. Contaminated cleaning materials, broom and other body fluids must be autoclaved and/or disposed of according to local regulations for infectious waste disposal.

PRECAUTIONARY STATEMENTS: Hazard to Humans and Domestic Animals. DANGER. Causes immediate eye damage and skin burns. Harmful if absorbed through skin. Harmful if swallowed. Do not get in eyes, on skin or clothing. Wear protective eye glasses, face shield, or splash goggles, rubber gloves and protective clothing. Wash thoroughly with soap and water after handling and before eating, drinking, smoking tobacco, chewing gum, or taking the toilet. Remove contaminated clothing and wash clothing before reuse.

FIRST AID: If in eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice. If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

24 HOUR MEDICAL EMERGENCY NUMBER: 800-214-6171
Use the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucous damage may contaminate the use of saline irrigates.

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Pesticide Storage: Store in a cool, dry area inaccessible to children. Pesticide Disposal: Pesticide waste may be hazardous. Improper disposal of excess pesticide, spray mixture or residue is a violation of federal law. These wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the maximum waste representative at the nearest EPA Regional Office for guidelines. Container Disposal: Non-refillable container. Do not reuse or refill this container. Triple rinse as follows: Fill the container 1/4 full with water and recap. Shake for 1 minute. Drain for 10 seconds after the few begins to drip. Follow Pesticide Disposal instructions for residue disposal. Reused procedure two or more times. Then offer for recurrication or recycling, if not available, puncture and dispose in a sanitary landfill.
