Precautionary Statements
Hazard to Humans and Domestic Animals

CAUTION

Harmful if swallowed. Harmful if inhaled or absorbed through the skin. Causes moderate eye irritation. Avoid contact with eyes, on skin or on clothing. Prolonged or frequently repeated skin contact with the active ingredient Trifluralin, may cause allergic reaction in some individuals.

For additional information in case of emergency call toll free 1-800-424-9300.

First Aid

If swallowed:
- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

If in eyes:
- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

If on skin or clothing:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If inhaled:
- More person to fresh air.
- If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
- Call a poison control center or doctor for treatment advice.

Have the product container label with you when calling a poison control center or doctor, or going for treatment.

Personal Protective Equipment (PPE)

Applicators and all other Handlers must wear:
- Long-sleeved shirt and long pants.
- Shoes and socks.
- Chemical resistant gloves such as or made of any waterproof material.

User Safety Requirements:

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

Biobarrier Applications

Bicycle Paths
Building Foundations
Burial Vaults/Tombstones
Curbs
Earthdams
Golf Greens/Tees/Cart paths
Landfills
Medians
Planting Beds/Containers
Retaining Walls
Roads
Roof Gardens
Septic Tanks/Fields
Sidewalks
Swimming Pools
Tennis Courts
Underground Pipes/ & Cables
Utility Substations
Weed Control

Biobarrier Root Control System

Biobarrier is a multi-year root control system consisting of time-release nodules impregnated with a herbicide. The nodules are attached permanently to a flexible and permeable geotextile fabric which can be contour applied to a wide variety of applications and which will inhibit plant root development in the applications set forth below.

Active Ingredient: Nominal
Trifluralin (o,o',o'-trifluoro-2,6-dinitro-N,N-dipropyl-p-toluidine)....... 17.5%

Inert Ingredients:…………………………………………………………. 82.5%
TOTAL:……………………………………………………………………. 100.0%

KEEP OUT OF REACH OF CHILDREN

CAUTION

See side panel for additional Precautionary Statements.

Tennis Courts
Underground Pipes/ & Cables
Utility Substations
Weed Control

Biobarrier is a multi-year root control system which is strategically positioned in the soil to control plant structures from tree root encroachment (see applications). Biobarrier controls roots by establishing an in-soil barrier plane of trifluralin which prevents root tip cell division. Roots are either stopped or redirected away from structures. Trifluralin is not systemic but can limit root mass. The multi-year feature of Biobarrier is provided by a time-release mechanism which continues to meter trifluralin into the soil. In all applications, nodules must be no further than one and one-half inches apart in order to assure a continuous root control plane. Fabric should extend a minimum of 18" beyond structure area to be protected as roots can grow around edges of fabric. For vertical applications, the top edge must be even with the soil surface. A minimum of 2" soil overlay should also be maintained for horizontal applications.

Biobarrier can be installed in the soil vertically, horizontally, or as a surround. Vertical applications typically require standard ditch/trench digging equipment (follow all applicable codes when digging below ground). Vertical fabric position can be maintained by suspending it at the top with pegs. Horizontal applications may require seaming or hold down pegs. Surround applications may involve a variety of holding devices to assure fabric position. In all applications, nodules must be no further than one and one-half inches apart in order to assure a continuous root control plane. Fabric should extend a minimum of 18" beyond structure area to be protected as roots can grow around edges of fabric. For vertical applications, the top edge must be even with the soil surface. A minimum of 2" soil overlay should also be maintained for horizontal applications.

Biobarrier, used in retrofit applications where roots are already present, requires roots to be interrupted with a root pruner or equivalent device and removed. Root control will not be effective if roots penetrate fabric at time of installation.

(SEE ADDITIONAL DIRECTIONS ENCLOSED)

PESTICIDE STORAGE AND DISPOSAL

Do not contaminate water, root, or feed by storage or disposal.

PESTICIDE Storage:
Store in original container only. Store in a dry place out of direct sunlight.

PESTICIDE Disposal:
Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal:
Completely empty container. Then dispose of empty box in a sanitary landfill or by incineration, or, if allowed by State and Local authorities, by burning. If burned, stay out of smoke. Non-refillable container. Do not reuse or refill this container.

Directions:

Biobarrier is a multi-year root control system which is strategically positioned in the soil to control plant structures from tree root encroachment (see applications). Biobarrier controls roots by establishing an in-soil barrier plane of trifluralin which prevents root tip cell division. Roots are either stopped or redirected away from structures. Disclaimer of Warranties

To the extent consistent with applicable law, the Seller makes no warranties of merchantability or fitness for a particular purpose, or any other express or implied warranty.

Buyer assumes all risk and liability resulting from use of the products delivered hereunder, whether used singularly or in combination with other products. All statements concerning this product apply only when used as directed.

Limitation of Damages

No claim of any kind, whether as to products delivered or for nondelivery of products, and whether or not based on negligence, shall be greater in amount than the purchase price of the products in respect to which damages are claimed. No charge or expense involved in any claim will be allowed unless approved by an authorized representative of Seller. Products shall not be returned to seller without Seller's prior permission, and then only in a manner prescribed by Seller. To the extent consistent with applicable law, the remedy hereby provided shall be the exclusive and sole remedy of Buyer, and in no event shall either party be liable for special, indirect or consequential damages, whether or not caused by or resulting from the negligence of such party.
