DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
Sani-Glide is specially formulated for sanitation of conveyors in the dairy, beverage and food processing industries.
Sani-Glide contains a multiple phenolic system active as a sanitizer against the pathogenic organisms Listeria monocytogenes and Salmonella typhimurium, on inanimate, non-food contact surfaces.
Sani-Glide keeps conveyors free of slime and soil buildups.
PRE-CLEAN: For best results, spray-clean conveyors with a suitable detergent to remove soil and slime buildup, SANITIZE: Spray-apply a 1% by volume (1-1/4 ounces to 1 gallon of water) dilution of Sani-Glide in water through standard conveyor lubricant spray nozzles using a conveyor lubricant dispensing system such as the Kleenlube Lubri-Kleen 260, Super Kleen-Ject, or Micro Master 100. Allow a minimum of 5 minutes contact time. No need to rinse with potable water or remove product as Sani-Glide can be continuously applied to conveyors to prevent slime and soil buildups.
Sani-Glide is effective in water up to 150 ppm hardness as calcium carbonate (9 grams per gallon) at 1% by volume.

Not to be used on food contact surfaces.

STORAGE AND DISPOSAL
DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL.
Pesticide Storage: Do not store above 120 deg. F. Keep from freezing.
Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mud or residue is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste Representative at the nearest EPA Regional office for guidance.
CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Triple rinse container or equivalent promptly prior to emptying. To clean the container before final disposal, empty the remaining contents from this container into application equipment or a mix tank. Fill the container with about 10 percent full with water. Agitate vigorously for 2 minutes. Pour or pump rinse into application equipment or residue collection system. Repeat this rinsing procedure two or more times. Offer for recycling, if available, or puncture and dispose of in a sanitary landfill or by incineration.

PROTECT FROM FREEZING FOR INDUSTRIAL USE

ACTIVE INGREDIENTS:
c-Phenylphenol .................................................. 1.5%
c-Benzyl-p-chlorophenol ........................................ 1.4%
OTHER INGREDIENTS*: ........................................ 97.1%
TOTAL: ................................................................ 100.0%

*Contains lubricity and cleaning agents.

KEEP OUT OF REACH OF CHILDREN DANGER

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: CORROSIVE: Causes irreversible eye damage or skin burns. Harmful if swallowed or absorbed through skin or inhaled. Do not get in eyes, on skin or on clothing. Avoid breathing spray mist. Wear goggles or face shield (safety glasses), protective clothing (long-sleeve shirt and long pants, socks, plus shoes and chemical resistant gloves, such as barrier laminate or butyl rubber, nitrile rubber, neoprene rubber, polyvinyl chloride, or viton). Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Prolonged or frequently repeated skin contact may cause an allergic reaction in some individuals. Remove contaminated clothing and wash before reuse.
Follow manufacturer’s instructions for cleaning/maintaining personal protective equipment. If no such recommendations for washables, use detergent and hot water. Keep and wash personal protective equipment separately from other laundry.

EPA Reg. No. 1677-128
EPA Est. 1677-L-2 (L), 1677-TX (D), 1677-IA-1 (M), 1677-CA-1 (S), 1677-MN-1 (P), 1677-OH-1 (H), 1677-CA-2 (R), 1677-WW-1 (W).
Superscript refers to first letter of date code.

FIRST AID
IF IN EYES: Hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
IF INHALED: Move the person to fresh air. If the person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.
