BARDAC 208M

DISINFECTANTS, LIQUID, CORROSIVE N.O.S. (QUATERNARY AMMONIUM COMPOUNDS)

Lonza Inc.
90 Boroline Road
Allendale, NJ 07401 USA

Customer Service Tel No. 1-800-631-3647

PROD. No. 1006789

Net Weight: 410 LB

1. PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: CORROSIVE. Causes immediate or delayed skin and eye damage. May be fatal if inhaled, swallowed or absorbed through the skin. Do not get in eyes, on skin or on clothing. Do not breathe vapor. Wear a dust/nuisance respirator with high efficiency particulate (HEPA) filter. Wear protective eyewear, gloves and rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Remove contaminated clothing and wash clothing before reuse.

FIRST AID

IF IN EYES: Hold eyes open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes. Continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALATION: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration. Do not give anything by mouth to an unconscious person.

NOTE TO PHYSICIAN: Probable mucosal damage may contaminate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

UN1903

For Use By Manufacturers Only In Formulating Antimicrobial Products For The Uses Indicated On The Label

BARDAC® 208M

Disinfectants, liquid, corrosive n.o.s. (Quaternary ammonium compounds)

For formulation into antimicrobial products for use in non-Agricultural premises and equipment, Food Handling/storage establishment premises and equipment, Commercial, institutional and industrial premises and equipment, Residential premises, Medical Premises and equipment, Industrial processes and water systems, Wood preservatives and Swimming Pools. Formulations using this product are responsible for providing data for the EPA registration of their formulated products. This product may be used to formulate products for specific use(s) not listed on this label if the formulator or primary registrant has complied with U.S. EPA data requirements regarding the support of such uses.

NOTE: This product should not be used or compounded with any reducing or oxidizing agents (such as calcium hypochlorite, sodium dichloro, or nitric acid) since such reagents may be explosive. Do not use in conjunction with soap or any anionic wetting agent.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage

Open containers are prohibited. Store in original container or in aseptic containers in areas inaccessible to children.

Pesticide Disposal

Acute toxicity hazard. Improper disposal of unused pesticide, empty containers or residue is a violation of Federal Law. If waste cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative of the local EPA Regional Office for guidance.

Container Disposal

Immovable containers: Do not reuse or refill the container. Clean container promptly after emptying.

Plastic Containers: Toss into trash as follows. Empty the remaining contents into appropriate equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Toss container on its side and roll it back and forth, ensuring at least one complete revolution for 30 seconds. Stand the container on its end and roll it back and forth several times. Toss the container over only to other end and to its back and forth several times. Empty the rinse into a collection equipment or a mix tank, store container for later use or disposal. Repeat this procedure two more times. Then offer for recycling or reconditioning if available, or puncture and dispose of in a sanitary landfill or by incineration. If incineration cannot be used, incinerate container at 1400°F or 760°C with water. Replace and tighten closures. Toss container on its side and roll it back and forth, ensuring at least one complete revolution for 30 seconds. Stand the container on its end and roll it back and forth several times. Toss the container over only to other end and to its back and forth several times. Empty the rinse into a collection equipment or a mix tank, store container for later use or disposal. Repeat this procedure two more times. Then offer for recycling or reconditioning if available, or puncture and dispose of in a sanitary landfill, or by incineration or by other procedures allowed by state and local authorities. DO NOT cut or weld metal containers.

For Bag in Box Containers: Completely empty bag into application equipment. Then offer for recycling if available or disposal of in a sanitary landfill, or by incineration, or by other procedures allowed by state and local authorities.
