Steriphene II Brand Disinfectant Deodorant is for use on hard, nonporous surfaces in hospitals, schools, hotels, office buildings, industrial plants and other medical, commercial, institutional or industrial facilities. Steriphene II is not to be used as a terminal sterilant/high-level disinfectant on any surface or Instrument that (1) is introduced directly into the human body or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to prevent or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

**General Precautions and Restrictions:** Do not apply this product in a way that will contact workers or other persons. Only protected handlers may be in the area during application. Following application as a spray, do not enter or allow others to enter the treated area until the sprays have dried.

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Clean all surfaces prior to disinfection.

**Disinfection and Decontamination:** Shake well. Hold can 6 to 8 inches from surface and apply in a uniform mist film. Treated surfaces must remain wet for 10 minutes. Allow to air dry or wipe off.

**Tuberculocidal Activity:** Steriphene II Brand Disinfectant Deodorant is tuberculocidal under the above conditions in 10 minutes at 68°F (20°C).

*Kills HBV and HIV on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids* in health care settings or other settings in which there is an expected likelihood of soiling of non-porous surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Hepatitis B virus (HBV) and human immunodeficiency virus Type 1 (HIV-1) (associated with AIDS).

**Special Instructions for Cleaning and Decontamination Against HBV and HIV-1 on Surfaces or Objects Soiled with Blood/Body Fluids:**

1. **Personal Protection:** Clean up must be done wearing protective latex gloves, gowns, masks and eye protection.
2. **Cleaning Procedure:** Blood or body fluids must be thoroughly cleaned from surfaces and objects before application of disinfectant.
3. **Contact Time:** Leave surfaces wet for 10 minutes.
4. **Disposal of Infectious Material:** Contaminated cleaning materials, blood and other body fluids must be autoclaved and/or disposed of according to local regulations for infectious waste disposal.

**NOTE:** Make sure valve opening is pointed in the direction of intended spray. Do not use on varnished wood or raw metal fabrics. Steriphene II Brand Disinfectant Deodorant does not affect the perm that cause malodors. This product is not intended for use as a general space spray air freshener.
