Conklin Sanox® II is a proven “one-step” disinfectant-cleaner-sanitizer-fungicide-mildewstat-virucide* which is effective in water up to 400 ppm hardness in the presence of 5 percent serum contamination.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Apply Sanox II solution to walls, floors, and other hard (inanimate) non-porous surfaces such as tables, chairs, countertops, sinks, tile, porcelain, toilet bowls, and urinals with a cloth, mop, or mechanical spray so as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or when use-solution becomes visibly dirty.

**Hospital Disinfection:** To disinfect hard, non-porous surfaces in hospitals, add 1 and 1⁄4 ounces per gallon of water (~1:100 dilution). Treated surfaces must remain wet for 10 minutes.

**School, Home Disinfection:** To disinfect hard, non-porous surfaces in homes, schools, industry, and non-medical institutions, add 1 and ½ ounces per gallon of water (~1:100 dilution). Treated surfaces must remain wet for 10 minutes.

Sanitizing nonfood contact surfaces (such as floors, walls, tables, etc.): Add 2 ounces per 4 gallons of water (1:256 dilution) to effectively sanitize against *Staphylococcus aureus* and *Klebsiella pneumoniae* on hard, porous and non-porous environmental surfaces. Treated surfaces must remain wet for 60 seconds.

**Refill applicator bottle:** Sanox II can be used with Conklin’s Sanox II refill applicator bottle. When using this applicator, follow the use instructions found on the bottle label.

*Sanox II kills HIV on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus type 1 (HIV-1, associated with AIDS).

**Special instructions for cleaning and decontamination against HIV-1 on surfaces/objects soiled with blood/body fluids:** Use a 1:64 dilution mix.

**Personal protection:** Clean up should always be done wearing protective latex gloves, gown, mask, and eye protection.

**Cleaning procedure:** Blood and other body fluids containing HIV-1 must be thoroughly cleaned from surfaces and objects before application of Sanox II.

**Contact time:** Leave surface wet for 1 minute (60 seconds) for HIV-1 with 2 ounces Sanox II per gallon of water (1:64 dilution) use solution. Use a 10 minute contact time for disinfection against all other viruses, bacteria and fungi claimed.

**DANGER**

**KEEP OUT OF THE REACH OF CHILDREN**

Disposal of infectious material: Blood, body fluids, cleaning materials and clothing should be autoclaved and disposed of according to local regulations for infectious waste disposal.

**PRECAUTIONARY STATEMENTS**

**DANGER:** Hazards to humans and domestic animals. Corrosive. Harmful if swallowed. Causes eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Avoid contamination of food.

**FIRST AID**

Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment.

<tr>
<th>If in eyes</th>
<th>If on skin or clothing</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Hold eye open and rinse slowly and gently with water for 15–20 minutes.</td>
<td>• Take off contaminated clothing.</td>
</tr>
<tr>
<td>• Remove contact lenses, if present, after the first five minutes, then continue rinsing eye.</td>
<td>• Rinse skin immediately with plenty of water for 15–20 minutes.</td>
</tr>
<tr>
<td>• Call a Poison Control Center or doctor for treatment advice.</td>
<td>• Call a Poison Control Center or doctor for treatment advice.</td>
</tr>
</tbody>
</table>

**If swallowed and victim is conscious**

• Call a Poison Control Center or doctor for treatment advice.

• Promptly drink a large quantity of milk, gelatin solution, or large quantities of water if able to swallow.

• DO NOT induce vomiting unless told to do so by a Poison Control Center or doctor.

• DO NOT give anything by mouth to an unconscious person.

**NOTE TO PHYSICIAN**

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.

**STORAGE AND DISPOSAL**

Store in areas inaccessible to children. Always replace cap securely. DO NOT substitute cap with pump or other dispensers. Non-refillable container. DO NOT reuse or refill this container. Securely wrap original container in several layers of newspaper and dispose of in trash. Offer for recycling, if available.

For US Health Hazard Information, call 1-888-786-0974.

**Proposition 65 Statement:** This product contains chemicals known to the State of California to cause cancer, birth defects or other reproductive harm.

**VOC Content:** 0.7%
