**Principal Functioning Agents**

Paraffinic petroleum oil, tall oil fatty acids, alkylphenol ethoxylates............... 99.3%
Constituents ineffective as spray adjuvants................................. 0.7%
Total........................................................................ 100.0%

*All ingredients are exempt from the requirements of a tolerance as specified in 40 CFR 180.*

---

**Precautionary Statements**

Wash thoroughly after handling. Wear protective gloves, eye and face protection. If on skin: Wash with plenty of soap and water. If in eyes: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. Take off contaminated clothing and wash before reuse. Avoid breathing fumes, mist, vapors and spray.

---

**Storage and Disposal**

Do not contaminate water, food, or feed by storage and disposal.

**Storage:** Store between 40ºF and 120ºF. Store at ambient temperature. Store in a closed container.

**Disposal:** Do not reuse empty container. Triple rinse or equivalent during mixing and loading. Recycling decontaminated containers is best option for disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler, visit www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill. Dispose of contents and container in accordance with local/national regulations.
General Information
Crop Oil M is a high performance surfactant/oil blend designed for use with certain herbicides, fungicides and desiccants to enhance pesticide performance.
Crop Oil M should be used where uniform coverage of the spray is required.
Crop Oil M is compatible for use with fertilizer solutions.

First Aid
If in Eyes: Hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Always call a poison control center or doctor for treatment advice.
If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If Swallowed: Immediately call a poison control center or doctor for treatment advice. Do not give any liquids to the person. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Mixing Instructions
Before using Crop Oil M, read the entire pesticide label to be tank mixed. All instructions on the pesticide label must be followed. Fill 1/2 of spray tank with water, add the desired amount of pesticide along with other ingredients and continue filling. Add correct amount of Crop Oil M as the last component and continue agitation.

Directions For Use
Before using Crop Oil M, always read and follow all label directions, mixing instructions and precautionary statements of the pesticide label that is to be tank mixed with this product. Since Crop Oil M increases the activity of pesticide products, care should be exercised in applying on sensitive crops during high temperature and high humidity conditions. The use of test areas is recommended if these conditions prevail. Certain pesticide labels have recommended adjuvant use rates. In all cases, the pesticide label should be consulted regarding specific adjuvant use. Crop Oil M is not for aquatic use.

Use Rates for Ground or Aerial: Use 0.5 to 4 pints per acre.
Do not exceed 2.50% volume to volume concentration, or at rates recommended by the pesticide label, for crop oil concentrates.
The above use recommendations are considered to be adequate for most applications. Consult your local and state agricultural authorities for information regarding specific use recommendations or application procedures.

Not For Aquatic Use
