INSTITUTIONAL • FOOD PROCESSING • RESIDENTIAL

AN EFFECTIVE CLEANER, DISINFECTANT AND ACTIVE DEODORIZER FOR INSTRUMENTS, AND EQUIPMENT ON PRE-CLEANED, HARD, NON-POUROUS surfaces in health care, hospital treatment and patient rooms, operating rooms, schools, ambulances, hotels, restaurants, boats, planes, buses, and the home. Recommended for medical and dental equipment, beds, surgical carts, counter tops, mannequins, telephones, keyboards, furniture, wheelchairs, walkers, sinks, floors, walls, light switches, linens, hampers, shower stalls, beds, beds, trash containers and damp and musty areas, including animal areas. Self cleans and prevents odor-causing bacteria and fungi. Reduces the hazards of cross-contamination.

PASSES AACG EFFICACY STANDARDS FOR DISINFECTION IN THE PRESENCE OF 5% ORGANIC SOIL, FOR INSTITUTIONAL, HOSPITAL AND FARM PRE-CLEAN USE.

• Virucidal**: Avian Influenza A (H5N1), Influenza A (H3N2, H5N1 Japanese strain), Cytomegalovirus, Coronavirus, Poxvirus 1 viruses, Vaccinia, Canine parvovirus, Herpes simplex types 1 and 2, influenza strains and gonorrhea. See Sporicidin Bulletin No. 303.

• Bactericidal: Staphylococcus aureus, Salmonella enterica, Pseudomonas aeruginosa, Methicillin resistant Staphylococcus aureus (MRSA), Vancomycin resistant Enterococcus faecium (VRE), E. coli, Streptococcus pyogenes, Streptococcus salivarius, Influenzavirus a/burkholteria.

• FUNGICIDAL: Candida albicans, Aspergillus niger, Penicillium variabile, Trichophyton mentagrophytes (Athlete's Foot fungus).

ACTIVE DEODORIZER: Provides continuous residual bacteriostatic activity against odor-causing bacteria for up to 8 months, if not removed from surfaces including plastics, latex, vinyl, glass, treated wood, metal, glazed porcelain, glazed tile and paint. Sporicidin Disinfectant Towelettes are germicidal when used as directed for disinfection but offer in composition from other Sporicidin products.

DIRECTIONS FOR USE: It is a violation of U.S. Federal Law to use this product in a manner inconsistent with its labeling.

DO NOT DILUTE OR MIX WITH OTHER CHEMICALS

Preclean surfaces using Sporicidin Disinfectant Solution to remove soil and filth. Wipe dry with paper towel, cloth or sponge.

TO DISINFECT AND DEODORIZE items which cannot be immersed, such as electrical panels, cash registers, ovens, knives, handles, seats, dashboards and other ‘high touch’ surfaces in and around the environment, animal and poultry housing, barns, kennels, breeding pens, hatcheries, trusses and vehicles. Thoroughly wet pre-cleaned surfaces with Sporicidin Disinfectant Towelettes and allow surface to remain wet for 10 minutes. Use as many towelettes as necessary for the treated area to remain wet for ten minutes at room temperature (20°C/68°F or above) to kill listed organisms.

TO KILL, CLEAN AND PREVENT MOLD AND MILDEW: Use procedure stated above. Repeat application if new growth appears.

TO CLEAN AIR DUCTS: Apply to hard, non-porous surfaces.

TO SPOT CLEAN, DEODORIZE AND REMOVE DEBRIS FROM CARPET AND FABRICS: Blot or scrub area to be treated with Sporicidin Disinfectant Towelettes to remove soiling. Wipe dry with clean cloth or towel.

FOR FOOD PROCESSING PLANTS: Follow pre-cleaning and disinfecting instructions outlined above to disinfect hard, non-porous surfaces and materials in food handling areas, including poultry and meat packing facilities, slaughter houses, etc. All surfaces and materials that come in contact with food must be washed with soap or detergent and rinsed with potable water prior to use.

PRECAUTIONARY STATEMENTS: HAZARD TO HUMANS AND DOMESTIC ANIMALS.

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.

FIRST AID: If in eyes, remove contact lenses. Hold eye open and slowly rinse with water. If irritation persists for more than 5 minutes, consult a physician or poison control center.

STORAGE AND DISPOSAL: Store at room temperature. Nonrefillable container. Do not reuse or refill this container. Discard empty container in trash or offer for recycling if available.

FOR HOSPITAL DISINFECTION: This product is not to be used as a terminal sterilant or high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to prevent or desensitize critical or semi-critical medical devices prior to sterilization or high level disinfection.
