OXYSAN
MUSHROOM AND SPAWN MATE PRODUCTION, MUSHROOM PROCESSING, CANNERY OPERATIONS

SANITIZER
BACTERIOSTAT/DEODORIZER DISINFECTION
FUNGICIDAL-BACTERICIDAL
Active Ingredient: Chlorine Dioxide........ 2%
Inert Ingredients............................. 98%
TOTAL......................................... 100%
KEEP OUT OF REACH OF CHILDREN

CAUTION
PRECAUTIONARY STATEMENT: HAZARD TO HUMANS AND DOMESTIC ANIMALS
Harmful if swallowed. May cause irritation. Avoid contact with eyes.

FIRST AID

If inhaled
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then provide artificial respiration, preferably mouth-to-mouth if possible.
- Call a poison control center or doctor for further treatment advice.

If on skin or clothing
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If in eyes
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lens, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

If swallowed
- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

DIRECTIONS FOR USE:
It is a violation of federal law to use this product in a manner inconsistent with its labeling.

IN MUSHROOM FACILITIES, SUCH AS MUSHROOM PRODUCTION, SPAWN PRODUCTION AND MUSHROOM PROCESSING AND CANNERY OPERATIONS

As a terminal sanitizing rinse for stainless steel tanks, transfer lines, on-line equipment, picking baskets, picking utensils and other food contact surfaces.

1) All gross food particles and soil should be removed prior to sanitizing by use of a pre-flush, pre-scrub or pre-soak treatment.
2) Clean picking baskets, line equipment or other surface thoroughly using a suitable detergent and rinse with clean potable water before sanitizing.
3) Preparation of sanitizing solution: Place 3 1/4 fl. oz. of OXYSAN concentrate into a clean plastic pail or drum and add 10 grams of OXYSAN Activator Crystals or food grade citric acid (no less than 99% purity) to this solution, add five (5) gallons of clean potable water. This will yield a working solution containing 100 ppm available chlorine dioxide.

4) To apply, flush picking baskets, line equipment or other food contact surface with active solution making sure surface area is thoroughly wet for at least one (1) minute. After sanitizing, drain baskets or equipment and allow to air dry. Treat after each use or production run. Discard solution after each use.

TO DISINFECT WALLS, CEILINGS AND FLOORS

DIRECTIONS FOR USE:
1) Before disinfection, all gross filth must be removed from area to be disinfected and thoroughly cleaned with a suitable detergent followed by a clean, potable water rinse.
2) Preparation of active disinfectant solution: Place 3 1/4 fl. oz. of OXYSAN into a clean plastic pail and add 10 grams of OXYSAN Activator Crystals or food grade citric acid (no less than 99% purity) to this solution, add one gallon of clean, potable water. This will yield a working solution containing 500 ppm of available chlorine dioxide.
3) To apply, spray disinfectant solution onto surface using a suitable spray gun and make sure that the area is thoroughly wet for at least ten (10) minutes. Active solutions may be irritating when breathed. Therefore, always use an applicable PPE/MSHA approved respirator appropriate for chlorine dioxide when spraying these solutions. After application, allow to air dry. Treat as required. Always apply freshly made solutions. Never re-use activated solutions.

ENVIRONMENTAL HAZARDS
This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL:

STORAGE: Store in a cool, dry, well-ventilated location away from acids, chlorine and chlorine compounds, hypochlorites, bleach, organic solvents, sodium and sulinate compounds, phosphoric, combustible flammable materials and direct sunlight. Keep containers tightly closed when not in use and open carefully to prevent spillage. Storage on wooden floors and pallets is not recommended. Do not contaminate water, food or feed by storage or disposal.

CONTAINER DISPOSAL: Triple rinse. Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
