SANITE 128 F

Disinfectant-Cleaner-Sanitizer-Fungicide-Mildewstat-Virucide* Deodorizer for Hospitals, Institutional and Industrial Use, Effective in hard water up to 200 ppm hardness (calculated as CaCO3) in the presence of 5% serum contamination.

DIRECTIONS FOR USE CONTINUED

Preparation of Disinfectant Use-Solution: Add 2 oz. per gallon of water (1/4). For heavy duty use, add (mix) 8 oz. per gallon of water (1/16).

DISINFECTION / VIRUCIDAL / FUNGICIDAL / MOLD AND MILDEW CONTROL DIRECTIONS: Apply use-solution to hard, nonporous surfaces, thoroughly wetting the surfaces, with a cloth, mop, sponge, sprayer or by immerse. Treated surfaces must remain wet for 10 minutes. For influenza Virus Type A treated surfaces must remain wet for 1 minute. Wipe dry with a cloth, sponge or mop or allow to air dry. For heavily soiled areas, a preliminary cleaning is required. For spray applications, use a coarse spray device. Spray 6-8 inches from surface, rub with brush, sponge or cloth. Avoid breathing spray.

For fungicidal activity, SANITE 128 F is an effective fungicide against Trichophyton mentagrophytes (the athlete's foot fungus) in areas such as locker rooms, dressing rooms, showers and bath areas and exercise facilities. SANITE 128 F is a one step fungicide at 0.2 oz. per gallon or 200 ppm hard water and 5% serum.

At 0.2 oz. per gallon in 400 ppm hard water, SANITE 128 F must be used on prewetted surfaces. For mold and mildew 0.2 oz. per gallon, SANITE 128 F will effectively inhibit the growth of mild and mold and the odors caused by them when applied to hard, nonporous surfaces. Follow disinfection instructions. Repeat treatment every seven days, or more often if new growth occurs. Rinse all surfaces that come in contact with food such as countertops, appliances, tables and stoveswep with potable water before reuse. Do not use on utensils, glassware and dishes as a disinfectant. Prepare a fresh solution daily or more often if the solution becomes visibly dirty or discolored. This product is not for use on medical devices.

TO SANITIZE NON-FOOD CONTACT SURFACES: Add (mix) 2 oz. of SANITE 128 F per 4 gallons of water (1/2 oz. of SANITE 128 F per gallon of water) to sanitize hard nonporous surfaces. Treated surfaces must remain wet for 60 seconds. Wipe dry with a sponge, mop or cloth or allow to air dry.

Poultry and Swine Premise Disinfection Directions: Remove all animals and leads from premises, vehicles, and enclosures such as coops and cretes. Remove all litter, droppings and manure from floors, walls and surfaces of pens, stalls, chutes and other facilities and fixtures occupied or traversed by animals. Empty all troughs, tanks and other feeding and watering apparatus. Thoroughly clean all surfaces with soap and detergent and rinse with water. Use 2 oz. of SANITE 128 F per gallon of water. Saturate surfaces with the disinfecting solution for 10 minutes. Use 8 oz. per gallon of water to kill Adenovirus Type 5 and type 7. Immerse all hammers, ropes and other types of equipment used in handling and restocking animals, as well as forks, shovels, and scrapers used for removing litter and manure. Ventilate buildings, cars, trucks, coops and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set or dried. Thoroughly scrub treated feed racks, mangoers, troughs, automatic feeders, feeders and waterers with soap and detergent, and rinse with potable water before reuse.

TO SANITIZE FOOD CONTACT SURFACES: Use SANITE 128 F to sanitize hard nonporous surfaces of food processing equipment, dairy equipment, food utensils, dishes, kitchen sink, countertops, refrigerated storage and display equipment and other hard surfaces. Prior to application, remove gross food particles and soil by a pre-flush, pre-scrape and, when necessary, pre-scrub. Then thoroughly wash or flush objects with a good detergent or compatible cleaner followed by a potable water rinse before application of the sanitizing solution. Apply a use-solution of 1 oz. SANITE 128 F per 2 gallons of water to prewet hard surfaces thoroughly wetting surfaces with a cloth, mop, sponge, coarse sprayer or by immersion. Surfaces must remain wet for at least 30 seconds (after rinse) followed by adequate rinsing and air drying. Do not rinse. Prepare a fresh solution for each use. For mechanical application, use-solution may not be reused for sanitizing applications but may be reused for other purposes such as cleaning. Apply to sinks, counters, refrigerated storage and display equipment and other stationary hard nonporous surfaces by cloth, brush or coarse spray. Sanitize dishes, silverware, glassware, cooking chemist and other items involved in food processing equipment by immersion.

TO SANITIZE BEVERAGE DISPENSING EQUIPMENT:
1. Wash equipment with a compatible detergent and rinse with potable water prior to sanitizing.
2. Fill equipment with a solution of 1 oz. SANITE 128 F per 2 gallons of water.
3. Allow solution to remain in equipment for at least 60 seconds.
4. Drain thoroughly and allow to air dry.

TO SANITIZE EGG SHELLS INTENDED FOR FOOD:
To sanitize shell eggs to be used in shell eggs and egg product processing plants, spray with a use-solution of 1 oz. SANITE 128 F per 2 gallons of water. The solution must be equal to or warmer than the eggs, but not to exceed 120°F (49°C). Chill eggs thoroughly and allow to air dry. Eggs sanitized with this product shall be subject to a thorough potable water rinse only if they are to be broken immediately for use in the manufacture of egg products. Eggs must be reasonably dry before casing or breaking. The solution must not be re-used for sanitizing eggs. Note: Only clean, whole eggs can be used for sanitizing. Dirty, treated or punctured eggs cannot be sanitized. SANITE 128 F can be used in accordance with the U.S. Public Health Service food service sanitation recommendations.

WESMAR CO. INC.
Manufactured in U.S.A.

Nonfood Compounds D2 (Reg# 138483)

LABEL UPDATE: 11/13
LOT #: XXXXXX
NET CONTENTS: 55 gal (208 L)
DATE: 110713

SANITE 128 F is an effective sanitizer for use on pre-cleaned food contact surfaces at 150-200 ppm in waters up to 500 ppm hardness in 60 seconds against campylobacter jejuni, Escherichia coli, Staphylococcus aureus. SANITE 128 F is a disinfectant, Bactericidal according to the current AOAC Use-Dilution Test Method. Fungicidal according to the AOAC Fungicidal Test and Virucidal according to the virucidal qualification modified in the presence of 200 ppm hard water plus 5% organic serum against: Salmonella enterica, herpes simplex Virus Type 1, herpes simplex Virus Type 2 and influenza Virus Type A. Use on washable hard, nonporous surfaces of floors, walls, counters, plastic cutting boards & chopping blocks, metal and stainless steel.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Open dumpling is prohibited. Store in original container. In area inaccessible to children.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticides and other materials may cause a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for instructions.

Container Disposal: Noncombustible. Do not re-use or re-fill this container. Clean container promptly after emptying. Triple rinse as follows: Fill container 1/4 full with water and pour in the container. Add active vegetable, and dispose of rinse in compliance with pesticide disposal instructions. Repeat two more times. Then offer for recycling or available for other use, or, at your own cost, dispose of in sanitary landfill or by other procedures approved by state and local authorities. Follow pesticide disposal instructions for rinses. If not triple rinsed, these containers are acutely hazardous wastes and must be disposed in accordance with local, state, and federal regulations.

KEEP OUT OF REACH OF CHILDREN

DANGER (PELIGRO)
See Side panel for Precautionary Statements and First Aid

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Before use in federally inspected meat and poultry food processing plants and dairies, food products and packaging materials must be removed from the room or carefully protected. DIRECTIONS FOR USE CONTINUED ON RIGHT PANEL.
PRECAUTIONARY STATEMENTS:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. Wear protective eyewear (goggles, face shield or safety glasses), protective (rubber or chemical-resistant) gloves and protective clothing. Harmful if swallowed or absorbed through the skin. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or going to the toilet. Remove contaminated clothing and wash clothing before reuse.

FIRST AID
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, and continue rinsing eye. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 30 minutes. IF SWALLOWED: Call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling poison control center or doctor or going to hospital.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal. Pesticide Storage: Open dumping is prohibited. Store in original container in areas inaccessible to children. Pesticide Disposal: Waste pesticides are acutely hazardous. Improper disposal of excess pesticide, spray mixture or residue is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. Container Disposal: Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse as follows: Fill container 3/4 full with water and recirculate. Agitate vigorously, and dispose of rinse water consistent with pesticide disposal instructions. Repeat two more times. Then offer for recycling if available or repackage and dispose in sanitary landfill or by other procedures approved by state and local authorities. Follow pesticide disposal instructions for invite. If not triple treated, these containers are acute hazards wastes and must be disposed of in accordance with local state, and federal regulations.

SANITE 128 F

Disinfectant-Cleaner-Sanitizer-Fungicide-Wide-Killing-Virucide® Odorizer for Hospitality, Institutional and Industrial Use. Effective in hard water up to 200 ppm hardness. (calculated as CaCO₃) in the presence of 5% sodium concentration.

ACTIVE INGREDIENTS

- Diocetyl dimethyl ammonium chloride: 1.55%
- Dioctyl dimethyl ammonium chloride: 0.65%
- Dioctyl dimethyl ammonium chloride: 0.99%
- Alkyl (C₁₂ - C₁₄), 40%: 10.0%
- Dimethy lbenzyl ammonium chloride: 2.20%
- Other Ingredients: 96.35%

TOTAL: 100.00%

SANITE 128 F is an effective sanitizer for use on pre-cleaned food contact surfaces. It is effective at 2 oz per gallon against Escherichia coli, Staphylococcus aureus, Salmonella sp., and Listeria monocytogenes. Use to wash and rinse nonporous surfaces of floors, walls, counters, and stainless steel fixtures. Use to control growth of mold and mildew in damp areas. Use to wash and rinse nonporous surfaces of floors, walls, counters, and stainless steel fixtures. Use to control growth of mold and mildew in damp areas.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Before use in intimately inspected areas and possibly food processing plants and dairy, food products and packaging materials must be removed from the room or carefully protected. DIRECTIONS FOR USE CONTINUES ON RIGHT PANEL.

Preparation of Disinfectant Use-Solution:
Add 2 oz per gallon of water (16 L). For heavy daily use, add (1/4 oz to 1 oz) per gallon of water (10 L).

DISINFECTION / VIRUCIDE: 1:30 VIRUCIDE / WINDS AND MILDREW CONTROL DIRECTIONS: Apply solution in hard, nonporous surfaces, thoroughly washing the surfaces, with a cloth, mop, sponge, sprayer, or by immersion. Treated surfaces must remain wet for 10 minutes. For influenza Virus A treated surfaces must remain wet for 1 minute. Wipe dry with a cloth, vacuum or mop or allow to dry. Dry for 1 hour. Virocidal solutions are to be used only with 1 oz per gallon. Use a wash or rinse sprayer. Dry - 6 inches from surfaces, rub with brush, sponge or cloth. Avoid breathing spray.

For fingested activity, SANITE 128 F is an effective fungicide against Trichophyton mentagrophytes (the athlete's foot fungus) in areas such as locker rooms, changing rooms, shower and bathing facilities. SANITE 128 F is a one-step formulation at 2 oz per gallon in 200 ppm hard water and 5% serum. All 2 oz per gallon in 400 ppm hard water. SANITE 128 F must be used on prewashed surfaces.

For mild and moderate A2 or C2 per gallon, SANITE 128 F will effectively kill the growth of mold and mildew and the odor caused by them as well as hard, nonporous surfaces. Follow disinfection instructions. Treat surfaces every seven days or more often if new growth appears. Rinse all surfaces twice after use. Rinse plastic parts with soap and water before reuse. Do not use on natural, glassware, and dishes as a disinfectant. Prepare a fresh solution daily or more often if the solution becomes visibly dirty or dirty. This product is not to be used on medical devices or surfaces.

TO SANITIZE NON-FOOD CONTACT SURFACES: Add (1/2 oz to 1 oz) per gallon of water (10 oz to 32 oz per gallon) in 200 ppm hard water. To 5% serum. Prewash surfaces with mild detergent solution. Rinse thoroughly with soap and detergent and rinse with water. Use 2 oz per gallon of water for all bacteria, including Listeria, Salmonella, and Staphylococcus aureus. Use to wash and rinse nonporous surfaces of floors, walls, counters, and stainless steel fixtures. Use to control growth of mold and mildew in damp areas. Use to wash and rinse nonporous surfaces of floors, walls, counters, and stainless steel fixtures. Use to control growth of mold and mildew in damp areas.

TO SANITIZE FOOD CONTACT SURFACES: Use 2 oz per gallon of 200 ppm hard water. To 5% serum. Prewash surfaces with mild detergent solution. Rinse thoroughly with soap and detergent and rinse with water. Use 1 oz per gallon of water to kill Attenborough Type 1 and Type 2. Prewash all surfaces, rinse or other types of equipment in hard water and rinse reagents, as well as fruits, vegetables, and utensils used for removing fish and meats. Pallets, buildings, cars, trucks, buses, and other closed spaces. Do not use in contact with wine or food products. Use to wash and rinse nonporous surfaces of floors, walls, counters, and stainless steel fixtures. Use to control growth of mold and mildew in damp areas. Use to wash and rinse nonporous surfaces of floors, walls, counters, and stainless steel fixtures. Use to control growth of mold and mildew in damp areas.
