DIRECTIONS FOR USE ON ORNAMENTAL PLANTS
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

Agricultural Use Only

REQUIREMENTS:
Use the product only in accordance with the labeling and with the Worker Protection Standard, 40 CFR 195. This Standard contains requirements for the protection of agricultural workers on farms, nurseries, and greenhouse or handlers of agricultural products. It contains requirements for training, decontamination, reentry, and emergency situations. It also contains specific instructions and exceptions pertaining to the statements on the label about personal protective equipment (PPE) for workers, reentry, and restricted-access areas. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the statutary entry period (SEP) of 2 hours.

EXCEPTIONS:
If the product is sold in a non-repackaged, the Worker Protection Standard, under certain circumstances, allows workers to enter the treated area. If there will be no reentry contact with anything that has been treated, the ship will require that the label entry be treated areas that are permitted under the Worker Protection Standard and that includes contact with anything that results. Use of gloves, wetsuits, protective eyewear.
