Detergent/Disinfectant

Active Ingredients:
- n-Alkyl (60% C12, 30% C14, 5% C16, 5% C18) dimethyl benzyl ammonium chloride: 2.23%
- n-Alkyl (68% C14, 32% C16) dimethyl ethylbenzyl ammonium chloride: 2.23%
- Other Ingredients: 95.50%

Total: 100.00%

Keep out of reach of children

Danger

First Aid
If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

In case of Emergency, call a Poison Control Center or Doctor for Treatment Advice.
1-800-851-7145

Have the product container or label with you when calling a Poison Control Center or doctor or going in for treatment.

Note to Physician: Probable mucosal damage may contraindicate gastric lavage.

This product is a phosphate-free concentrated detergent/disinfectant which provides effective cleaning, deodorizing, disinfection, and sanitation. It has been designed specifically for hospitals, nursing homes, operating rooms, patient care facilities, restrooms, schools, food processing plants, food service establishments, and other institutions where housekeeping is of prime importance for controlling cross contamination. This product deodorizes areas which are generally hard to keep fresh smelling, including garbage storage areas, empty garbage bins and cans.

This product is formulated to disinfect the following hard, non-porous, inanimate surfaces: walls, floors, sinks, countertops, toilet bowls, tables, chairs, and telephones.

This product is for use as a sanitizer in restaurants, dairies, food processing plants and bars. For use on: chopping blocks, countertops, tables, glasses, dishes and utensils.

This product, when diluted at 2 oz. per gallon of water in the presence of 5% blood serum and 10 minute contact time, is an effective disinfectant against the following organisms on hard, non-porous inanimate surfaces:

**Bacteria:**
- Pseudomonas aeruginosa (Pseudomonas aeruginosa), Enterobacter aerogenes, Shigella dysenteriae, Staphylococcus aureus, Escherichia coli, Salmonella enterica (formerly known as Salmonella choleraeuis), Klebsiella pneumoniae, Streptococcus faecalis, and Brevibacterium anionicum.

**Viruses:**
- *HIV-1 (AIDS virus), *Adenovirus type 2 (causative agent of upper respiratory infections), *Herpes Simplex Virus Type 1 (causative agent of fever blisters), *Influenza A/Asian Virus (representative of the common flu virus), *Vaccinia virus (representative of the pox virus group)

**Fungi:** Trichophyton mentagrophytes

Mildew/Static Activity – controls and prevents the growth of mold and mildew: Aspergillus niger (and the odors caused by them) when applied to hard, non-porous inanimate surfaces.

**DIRECTIONS FOR USE:**
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product can be applied by mop, sponge, cloth, paper towel or coarse trigger sprayer.

**To Prepare Disinfectant Use Solution:**
Add the product at 2 oz. per gallon water. Prepare fresh solution daily or more frequently if soil is apparent.

**To Disinfect:** Pre-clean heavily soiled areas. Apply Use Solution to hard, non-porous inanimate surfaces. To disinfect, all surfaces must remain wet for 10 minutes. Allow to air dry.

**For Use as a General Cleaner and/or Deodorizer:** Apply Use Solution to surfaces. Wipe surfaces and let air dry.

**To Control Mold and Mildew:** Apply Use Solution to hard, non-porous environmental surfaces. Allow to air dry. Repeat application weekly or when growth reappears.

**To Disinfect Toilet Bowls:** Pre-clean heavily soiled area. Flush toilet, add 2 oz. of this product directly to bowl water. Swab bowl completely using toilet brush or mop, making sure to get under the rim. Let stand for 10 minutes. Flush.

**For Use as a Fungicide:** Pre-clean heavily soiled areas. Apply Use Solution to hard, non-porous environmental surfaces in areas such as locker rooms, dressing rooms, shower and bathroom areas. Allow surface to remain wet for 10 minutes. Wipe surfaces and let air dry.

*Kills HIV on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in health care settings (Hospitals, Nursing Homes) or other settings in which there is an expected likelihood of soiling with inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS).

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS:**
- **Personal Protection:** Disposable latex or vinyl gloves, gowns, face masks and eye coverings as appropriate, must be worn during all cleaning of body fluids, blood and decontamination procedures.
- **Cleaning Procedures:** Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this product.
- **Contact Time:** Allow surface to remain wet for 10 minutes.
- **Disposal of Infectious Material:** Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

**Wisconsin Sanitizer Instructions**

Sanitizing Food Contact Surfaces:
1. Pre-flush, scrape or pre-soak articles to be washed.
2. Wash areas or items to be sanitized with clean water and a recommended detergent.
3. Rinse with potable water.
4. Sanitize in a solution prepared by diluting 2 oz. of this product per 3-1/2 gallon water to 200 ppm quaternary level. Immense or wet all surfaces for at least 60 seconds (1 minute) or as required by local sanitation regulations. When solution deprecates or becomes soiled, discard. Test sanitizer solution periodically with a Quaternary Test Kit to ensure 200 ppm active quaternary.
5. Drain and allow equipment or utensils to air dry.

Note: NO POTABLE WATER RINSE of equipment is required. Prepare a fresh solution daily or more frequently if soil is apparent.

**STORAGE AND DISPOSAL**
Do not contaminate water, food, or feed by storage or disposal.

**PESTICIDE STORAGE:** Do not re-use empty container. Store in a dry place at 50°F to 120°F.

**PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide spray mixture or rinse water is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**CONTAINER DISPOSAL:** Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinse into application equipment or a mix tank or store rinse for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Offer for recycling, if available.
