This product is a phosphate-free concentrated detergent/disinfectant which provides effective cleaning, deodorizing, disinfection, and sanitation. It has been designed specifically for hospitals, nursing homes, motels, schools, food processing plants, food service establishments, and other institutions where housekeeping is of prime importance for controlling cross contamination. This product deodorizes areas which are generally hard to keep fresh smelling, including garbage storage areas, empty garbage bins and carts. This product is formulated to deodorize the following hard, non-porous, inanimate surfaces: walls, floors, sinks, countertops, tables, and chairs. This product is for use as a sanitizer in restaurants, dairies, food processing plants and bars. For use on: chopping blocks, countertops, tables, glasses, dishes and utensils.

DIRECTIONS FOR USE:
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product, when tested according to AAACP methods, is the presence of 5% blood serum has been shown to be an effective disinfectant against the following organisms on hard, non-porous inanimate surfaces:

Bacteria: Pseudomonas aeruginosa (PDR-1), Enterococcus faecalis, Staphylococcus aureus, Escherichia coli, Salmonella enterica (formerly known as Salmonella choleraesuis), Klebsiella pneumoniae, Staphylococcus faecalis, and Brevibactrium ammoniagenes.

*Viruses: *
*HIV-1 (ADSI virus), *Adenovirus Type 2 (causative agent of upper respiratory infections), *Herpes Simplex Virus Type 1 (causative agent of fever blisters), *Influenza A/H1N1 (representative of the common flu virus), *Astraiococcus Virus (representative of the poison virus group)

*Viruses: *
*HIV-1 (ADSI virus), *Adenovirus Type 2 (causative agent of upper respiratory infections), *Herpes Simplex Virus Type 1 (causative agent of fever blisters), *Influenza A/H1N1 (representative of the common flu virus), *Astraiococcus Virus (representative of the poison virus group)

Fungi: Trichophyton mentagrophytes

Mildewstat Activity – controls and prevents the growth of mildew and mold: Alpinus nigricans and the other molds caused by them when applied to hard, non-porous inanimate surfaces.

Sanitization: When used as a food contact sanitizer at 2.0 oz. of product per 3.5 gallons of water dilution (200 ppm quaternary), this product reduces the following bacteria by 98.999% with a 1 minute contact time on pre-cleaned, hard, non-porous inanimate surfaces: Staphylococcus aureus, Escherichia coli

This product can be applied by mop, sponge, cloth, paper towel or coarse trigger sprayer.

To Prepare Disinfectant Use Solution:
Add the product to 2 oz. per gallon water. Prepare fresh solution daily or more frequently if solution is apparent.

To Disinfect: Pre-clean heavily soiled areas. Apply Use Solution to hard, non-porous inanimate surfaces. Do not dilute, all surfaces must remain wet for 10 minutes. Allow to air dry.

For Use as a General Cleaner and/or Disinfectant: Apply Use Solution to hard, non-porous surfaces. Wipe surfaces and let air dry.

To Control Mold and Mildew: Apply Use Solution to hard, non-porous environmental surfaces. Allow to air dry. Repeat application weekly or when growth reappears.

**For Use as a Fungicide: Pre-clean heavily soiled areas. Apply Use Solution to hard, non-porous environmental surfaces in areas such as locker rooms, dressing rooms, shower and bath areas. Allow surface to remain wet for 10 minutes. Wipe surfaces and let air dry.

**Kills HIV on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in healthcare settings (Hospitals, Nursing Homes) or other settings in which there is an unexpected likelihood of soiling of inanimate objects/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with ADS).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS:
Personal Protection: Disposable latex or vinyl gloves, gowns, face masks and eye coverings as appropriate, must be worn during all cleaning of body fluids, blood and decontamination procedures.

Cleaning Procedures: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this product.

Contact Time: Allow surface to remain wet for 10 minutes.

To Sanitize Hard, Non-Porous Food Contact Surfaces and Equipment in Restaurants, Bars, Institutions, and Other Food Service Establishments:
1. Scrape, flush or presoak articles, utensils, dishes and glasses whether mobile or stationary to remove gross soil.
2. Thoroughly wash articles with detergent.
3. Rinse articles thoroughly with clean potable water.
4. Sanitize in a solution containing 2 oz. of this product per 3-1/2 gallons water (200 ppm active quat). Immerse all articles or utensils for at least 1 minute or contact time specified by governing sanitary code.
5. Place sanitized utensils on a rack or drain board to air dry.

Note: NO POTABLE WATER RINSE of equipment is allowed. Prepare a fresh solution daily or more frequently if soiled is apparent.

Wisconsin Sanitizer Instructions
Sanitizing Food Contact Surfaces:
1. Pre-flush, scrape or pre-soak articles to be washed.
2. Wash or items to be sanitized with clean water and a recommended detergent.
3. Rinse with potable water.
4. Sanitize in a solution prepared by diluting 2 oz. of this product per 3-1/2 gallon water to 200 ppm quaternary level. Immerse or wet all surfaces for at least 60 seconds (1 minute) or as required by local sanitation regulations. When solution depreciates or becomes soiled, discard. Test sanitizer solution periodically with a Quaternary Test Kit to ensure 200 ppm active quaternary.
5. Drain and allow equipment or utensils to air dry.

Note: NO POTABLE WATER RINSE of equipment is required. Prepare a fresh solution daily or more frequently if soiled is apparent.

Detergent/Cleaner

Detergent/Disinfectant

Cleaner • Detergent • Disinfectant • Sanitizer • Deodorizer • Viricide

Fungicide (pathogenic fungi) • Moldewstat (on hard inanimate surfaces)

For Institutional Use

ACTIVE INGREDIENTS:
- n-Alkyl (60% C16, 30% C14, 5% C12, 5% C10) dimethyl benzyl ammonium chloride ................................. 2.25%
- n-Alkyl (68% C16, 32% C14) dimethyl ethylbenzyl ammonium chloride .................................................. 2.25%
- OTHER INGREDIENTS: .................................................................. 95.50%
- TOTAL: .................................................................................. 100.00%

KEEPS OUT OF REACH OF CHILDREN DANGER

FIRST AID
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

IN CASE OF EMERGENCY, CALL A POISON CONTROL CENTER OR DOCTOR FOR TREATMENT ADVICE.
1-800-851-7145
Have the product container or label with you when calling a Poison Control Center or doctor going in for treatment.

Note to Physician: Probable mucosal damage may contraindicate gastric lavage.

See additional precautionary statements on side panel.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.
PESTICIDE STORAGE: Do not reuse empty container. Store in a dry place at
50°F to 120°F.
PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper
disposal of excess pesticide spray mixture or rinsate is a violation of Federal
law. If these wastes cannot be disposed of by use according to label
instructions, contact your State Pesticide or Environmental Control Agency, or
the Hazardous Waste representative at the nearest EPA Regional Office for
guidance.
CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this
container. Clean container promptly after emptying. Triple rinse as follows:
Empty the remaining contents into application equipment or a mix tank. Fill
the container 1/4 full with water and recap. Shake for 10 seconds. Drain
for 10 seconds after the flow begins to drip. Repeat this procedure
two more times. Offer for recycling, if available.
ENVIRONMENTAL HAZARDS
This product is toxic to fish and aquatic invertebrates. Do
not discharge effluent containing this product into
lakes, streams, ponds, estuaries, oceans or other
waters unless in accordance with the
requirements of a National Pollutant
Discharge Elimination System (NPDES)

permit and the permitting agency has been notified in writing prior to discharge. Do not
discharge effluent containing this product to sewer systems without previously notifying
the local sewage treatment plant authority. For guidance contact your State Water
Board or Regional Office of the EPA.

PRECAUTIONARY STATEMENTS
HAZARD TO HUMANS AND DOMESTIC
ANIMALS
DANGER: Corrosive. Causes irreversible eye damage and skin burns. Harmful if
absorbed through the skin. Do not get in eyes, on skin, or on clothing. Wear chemical
splash-proof goggles or face shield, rubber gloves and protective clothing when
handling. Wash thoroughly with soap and water after handling and before eating,
drinking, chewing gum, using tobacco or using the toilet. Remove
contaminated clothing and wash clothing before reuse.
