AND DIRECTIONS FOR USE
MOSQUITO DUNKS®

BIOLOGICAL MOSQUITO CONTROL
EACH DUNK KILLS MOSQUITOES FOR 30 DAYS OR LONGER

PRECAUTIONARY STATEMENTS:
Hazard to Humans: Avoid breathing dust. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.
Environmental Hazards: Do not apply directly to treated, finished drinking water reservoirs or drinking water receptacles when the water is intended for human consumption.

FIRST AID
If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
- Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor or going for treatment.

GENERAL INFORMATION:
MOSQUITO DUNKS® float on water and will keep on working for 30 days or longer under typical environmental conditions. While floating, they slowly release a long-term, biological mosquito larvicide at the water's surface. This larvicide gradually settles in the water where it is eaten by mosquito larvae growing there. MOSQUITO DUNKS® may be used in all types of containerized standing water sites, except finished, treated drinking water, where mosquito larvae grow. Alternate watering and drying will not reduce their effectiveness.

DIRECTIONS FOR USE:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

OUTDOOR USE AROUND THE HOUSEHOLD:
Use one (1) MOSQUITO DUNK® for up to 100 square feet of water surface, regardless of depth. They can be used whole or broken into portions and applied to containerized standing water found near the home such as:
• animal watering troughs
• unused swimming pools
• bird baths
• old automobile tires
• flower pots
• water gardens
• rain barrels and roof gutters
• tree holes
To prevent them from being washed away, the DUNKS can be anchored using a string tied through the center hole, or they can be stapled in place.

Use the following table to determine the quantity to be used:

<table>
<thead>
<tr>
<th>Surface Area of Standing Water</th>
<th>Use Quantity</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 to 5 square ft.</td>
<td>1/4 DUNK</td>
</tr>
<tr>
<td>5 to 25 square ft.</td>
<td>1/2 DUNK</td>
</tr>
<tr>
<td>25 to 100 square ft.</td>
<td>1 DUNK</td>
</tr>
<tr>
<td>Above 100 square ft.</td>
<td>1 DUNK/100 sq. ft.</td>
</tr>
</tbody>
</table>

Preflood Treatment Around The Household: Apply MOSQUITO DUNKS® at the rates recommended above to any target sites listed above which is known to become flooded after a rain. Use the correct amounts in accordance with the above dosage table.

INDOOR USE: For use in areas that collect water from time to time, areas such as elevator shafts, basements that flood, sump pumps and any drainage areas within buildings. Use the correct amount in accordance with the above table.

STORAGE AND DISPOSAL:
Do not contaminate water, food or feed by storage or disposal.
Storage: Tighten or seal containers of unused dunks. Store in cool, dry, well-ventilated place.
Disposal: Do not reuse empty packaging material. Perforate or crush and discard packaging material according to local trash disposal regulations.
