FIRST AID

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Rinse the person off a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eye open and close slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Approved for Aquatic Use with Pesticides Labeled for Aquatic Use.

DIRECTIONS FOR USE

The use of FAST BREAK can control foaming of spray mixtures. The reduction of foam can decrease mixing and filling times and reduce material loss caused by foaming over of spray tanks. It can reduce risks of unwanted and unsightly vegetation kills or contamination caused by foaming over.

For foam reduction when mixing spray solutions, add FAST BREAK at the rate of 1 ounce per 100 gallons of solution. Water hardness, temperature and spray tank mixture may call for more or less. Adjust the rate until the desired control is achieved. Add FAST BREAK to the partly water-filled tank first and agitate well before adding other products to the spray solution.

If foaming should occur after spray mixture is in tank, FAST BREAK can be applied directly to the surface using the trigger sprayer for fast foam knockdown.

STORAGE AND DISPOSAL

Storage: Store above 40°F. Do not freeze.

Container Disposal: Do not reuse empty container. Triple rinse (or equivalent) and offer for recycling. Do not reuse container for any purpose. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. Contact your state and local ACRC recycler or visit the ACRC web page at www.acrcycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

Notice of Warranty

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label and as intended by the manufacturer when used in accordance with directions under normal conditions of storage, handling and use. Seller makes no other express or implied warranty of merchantability or fitness for a particular purpose, nor is it representative of Seller. Buyer assumes the risk of any such storage, handling or use. Seller shall not be responsible for incidental or consequential damages, if any, resulting from a breach of warranty.
