PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER
Corrosive. Causes irreversible eye damage. Do not get in eyes or on clothing. Avoid contact with skin. Wear protective eyewear (goggles, face shield or safety glasses). Harmful if swallowed, inhaled or absorbed through skin. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

FOR CHEMICAL EMERGENCY
CALL INFOTRAC 1-800-535-9553
NON-FLAMMABLE. DO NOT FREEZE.

Use to Control Algae and Supress Growth of Bacteria
In Swimming Pools.
Use chemical-resistant gloves made of any waterproof material. Chemical Resistance Category A.

GENERAL INFORMATION
PristineBlue® is an innovative, unique formulation used for control of algae and suppression of bacterial growth in private and public pools, spas and hot tubs. PristineBlue® inhibits or suppresses the growth of bacteria. When used as directed on this label, it is a bactericide.

APPLICATION AND HANDLING EQUIPMENT
Application, handling or storage equipment MUST consist of either fiberglass, PVC, polypropylene, vinyl, metal plastics or stainless steel. Never use mild steel, nylon, aluminum, brass or copper around full strength PristineBlue®. Always rinse equipment free and clean of PristineBlue® each night with plenty of fresh, clean water. Always store PristineBlue® above 32°F. Freezing may cause product separation. Seller makes no warranty for product which has been frozen. Use formula for calculating water volume and flow rates. To find the capacity of water storage container in gallons, multiply the water volume in cubic feet times 7.5.

NOTE: 1 cfs/hr = 27,000 gallons
1 acre foot = 325,000 gallons

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in a safe place away from pets and keep out of the reach of children. Store away from excessive heat. PristineBlue® will freeze. Always keep container closed. Store PristineBlue® in its original container only. Keep away from galvanized pipe and any nylon storage or handling equipment.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess PristineBlue® spray mixture or rinseate is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. In the event of spill, neutralize with lime or baking soda before disposal. May deteriorate concrete.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinseate into application equipment or a mix tank or store rinseate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

DIRECTIONS FOR USE
It is a violation of federal law to use this product in a manner inconsistent with its labeling.

SPECIFIC DIRECTIONS FOR USE
To Control Algae in Swimming Pools, Spas and Hot Tubs: Treated pool effluent should not be discharged where it will drain into lakes, streams, ponds or public water. For spas and hot tubs, apply at the rate of 5 milliliters of PristineBlue® per 100 gallons of water for pools. Apply at the rate of 2 ounces of PristineBlue® per 1,000 gallons of water (20 ounces per 10,000 gallons). This will yield a rate of less than 0.0 ppm metallic copper. Application should be made before visible algae appear. Repeat a maintenance dosage every 2 weeks to maintain the recommended concentration and avoid excessive buildup of metallic copper. PristineBlue® may be used to help control pool odors, bacteria and algae during the winter months.

LIMITED WARRANTY AND LIMITATION OF REMEDIES
Seller makes no warranty if product is used contrary to label instructions. Seller will not be liable for more than the cost of this product.
