Turns Lawns a Deep Green

No Excess Growth, Less Mowing!
Lawn moss is a common problem in many areas. Moss thrives in damp, shady lawns where the soil is acidic and drainage is poor. Under these conditions moss can spread in areas where grass once grew. If steps are not taken, moss can take over a lawn.

Fortunately, moss can be quickly killed with application of MOSS OUT™ LAWN GRANULES. Killing the moss gives grasses a chance to "reclaim" the lawn. Since grass may be slow to fill in bare spots, we suggest reseeding with a quality Lily Miller® grass seed.

**GUARANTEED ANALYSIS**: 14.7% Iron (Fe)

10% Water Soluble Iron (Fe)

Derived from Ferrous Sulfate

Information regarding the contents and levels of metals in this product is available on the internet at http://www.aapfco.com/ingredients.htm

### DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. For best results, use only as directed. For best results, apply this product when the lawn is moist. Lawn moss to expose existing moss prior to application. This allows the spores to fall through the grass and land on the soil surface where they can germinate. Apply at the rate of 20 lbs. per 1,000 square feet for heavy moss infestations. Repeat application in 3-4 weeks for severe moss infestations.

**YOU MIST STAIN**: USE THIS PRODUCT ON LAWN ONLY KEEP THIS PRODUCT OFF SURFACES SUCH AS SIDWALKS, PATIOS, WOODEN DECKS, BRICKWALKS, AND CLOTHING. Spray moss surfaces uniformly to prevent staining. If contact is made with eyes, rinse open eye with water for 15 minutes or until irritation subsides. If irri
