DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Storage & Disposal
Do not contaminate water, food or feed by storage or disposal.
Petroleum: Store in original container in a cool, dry (preferably locked) area inaccessible to children and domestic animals. If exposure occurs, do not return to storage. Do not store in places where temperature may exceed 100°F (38°C). Do not store in direct sunlight. Do not store in warehouses where food is stored.

General Information
Cross-contamination is of major concern in health care and industrial areas such as greenhouses, kennels, veterinary establishments, flower shops, pet shops, food storage buildings and farms. NACCOSAN has been formulated to aid in the reduction of cross-contamination in these areas.

NACCOSAN is a one-step disinfectant cleaner that when used as directed is effective against a broad spectrum of bacteria, viruses, fungi, and will prevent the growth of mold and mildew and their spores.

NACCOSAN is an effective one-step formulation for use on non-food contact surfaces. When used as directed, NACCOSAN disinfects surfaces in food areas, soil and order sinks and counters, garbage cans and garbage storage areas, and other places where bacterial growth can cause real problems.

NACCOSAN is a proven "one-step" disinfectant/sterilizer/sanitizer/bactericide/fungicide/mildewstat/virucide that is effective in water up to 400 ppm hardness in the presence of 5% serum contamination.

Apply NACCOSAN to walls, floors, and other hard (non-porous) non-food surfaces such as floors, countertops, sinks, bathtubs, and pools.

NACCOSAN has been tested in the presence of 5% serum and 400 ppm hard water by the APCA Use-Dose test and found to be effective against a broad spectrum of gram-negative and gram-positive organisms as represented by:

Staphylococcus aureus
Salmonella choleraesuis
Escherichia coli
Streptococcus pneumoniae
Streptococcus pyogenes
Salmonella typhimurium
Escherichia coli
Salmonella enteritidis
E. coli

For Institutional & Industrial Use
(Greenhouses, Kennels, Veterinary Establishments, Flower Shops, Pet Shops)

Also for use as a Storage and Equipment Cleaner-Detergent. Effective in Hard Water up to 400 ppm Hardness (Calculated as CaCO3 in the Presence of 5% Serum Contamination)

ACTIVE INGREDIENTS:
- Alkyl (C8-10) octyl dimethyl ammonium chloride 8.680%
- Decyl dimethyl ammonium chloride 8.510%
- Nonyl phenol ethoxylate 3.255%
- Sodium hydroxide 3.262%
- Other ingredients 79.300%
Total 100.000%

Keep Out of Reach of Children
First Aid & Danger

If on Skin or Clothing:
- Take off contaminated clothing.
- Immediately rinse skin with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If in Eyes:
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

If Swallowed:
- Immediately call a poison control center or doctor for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-424-9390 for emergency medical treatment information.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

See side panels for additional precautionary statements.

EPA Reg. No. 70908-1 NET CONTENTS: 1 GALLON EPA Est-70908-CA-1
Storage and Equipment Cleaning and Disinfection (Non-Food Use): Disinfection of Empty Food Storage Buildings (such as but not limited to potato or fruit storages) and of Handling Equipment (such as, but not limited to, conveyors and seed cutters): Thoroughly clean surfaces to be treated.

Disinfection of Machinery (such as, but not limited to, farm machinery before transferring to another field or farm): Prior to treatment, thoroughly wash machinery with a pressure washer and allow to dry.

Fungicidal Performance: NACCOSAN is an effective fungicide against *Trichophyton mentagrophytes* (the athlete’s foot fungus) when used on surfaces in areas such as locker rooms, dressing rooms, shower and bath areas and exercise facilities. Allow solution to dry on treated surfaces.

Mold and Mildew Control: NACCOSAN effectively inhibits the growth of mold and mildew and the odors caused by them when applied to hard non-porous surfaces (as indicated in General Information). Allow solution to dry in treated surfaces and repeat when mildew growth returns.

Virucidal Performance: NACCOSAN was evaluated in the presence of 5% serum and 400 ppm hard water and found to be effective against the following viruses: *Influenza A/Brazil, Herpes Simplex* and *Vaccinia* on inanimate non-porous environmental surfaces. Allow solution to dry on treated surfaces.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

DANGER: Corrosive. Causes eyes and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed or absorbed through skin. Avoid contamination of food.
