PRECAUTIONARY STATEMENTS:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS. DANGER. Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. Wear protective eyewear (goggles, face shield or safety glasses). Wear protective clothing and rubber gloves. Avoid contamination of food. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

STATEMENT OF PRACTICAL TREATMENT – FIRST AID
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lens, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth. If possible, Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For additional medical advice, call the following emergency phone number: 330-916-7070.

NOTE TO PHYSICIAN: Probable mucosal damage may contaminate the use of gastric lavage.

PHYSICAL OR CHEMICAL HAZARDS:
COMBUSTIBLE. Do not use or store near heat or open flame.

STORAGE: Do not store on side. Avoid crushing or impacting of side walls. Store securely in closed original container. Avoid storage at temperature extremes or in sunlight. Avoid shipping or storing below freezing. If product freezes, thaw at room temperature and shake gently to remix components. Use stored container in an area that will prevent cross-contamination of other pesticides, fertilizer, food and feed. Store in locked area inaccessible to children.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or reinstate is a violation of Federal Law. If these wastes cannot be disposed of according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¾ full with water and recap. Shake for 10 seconds. Discard rinse. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

Non-refillable containers. Do not reuse or refill this container. Offer for recycling if available.

Dilution: Mix 2 ounces of this product per gallon of water (1/2 cup per liter).

Directions For Use: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

To be used in hospitals in the following areas as a disinfectant: operating rooms, patient care rooms & facilities, recovery, anesthesia, ER, radiology, X-ray cat lab, newborn nursery, orthopedic, respiratory therapy, surgery, centers, labs, blood collection rooms, central supply, household & janitorial rooms, nursing homes, doctor’s offices & labs, dentists offices & labs (dental operatory).

This product is not to be used as a terminal sterilant/medium-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

In addition, this product may be used as a disinfectant in Physician Offices, EMS & Fire Facilities, Day Care Centers, Crime Scenes and Funeral Homes, Mortuaries, Autopsy Rooms, Police Stations, Correctional Facilities, Jails, Municipal Government Buildings. Public Restrooms, Shower Rooms, Shower Stalls, Bathrooms, Homes, Colleges, Universities, Exercise Rooms, Gyms, Gymnasiuums, Health Clubs, Spas, Tanning Spas, Tanning Beds, Pool/Outdoor Surfaces, Massage/Relax Salons, Hair/Nail/ Pedicure Salons, Barber/Beauty Shops, Salons, Veterinary Clinics, Dog/Cat Animal Kenna, Breeding and Grooming Establishments, Boat, Ships, Airplanes, and Cruise Lines.

This product may be used on washable hard non-porous surfaces such as: Countertops (Counter), Sinks (Bathroom, Kitchen) Tables, Chairs, Desks, Bed Frames, Cabinets, Door knobs, Exercise Equipment, Equipment, Telephone, Shower Stalls, Toilet Bowls, Urinals, Restroom Fixtures, Ultrasonic Baths, WAV pools, Wellness and Gymnastics Mats.

Disinfection/Fungicides/Virucides® for Barber/Salon Tools Directions: Immerse pre-cleaned barber/salon tools, such as combs, brushes, razors, clipper and trimmer blades, tweezers, manicure/pedicure tools and scissors, in a 2 ounces per gallon solution of the product or
2

Rev. 02-07-2012

equivalent use dilution). Completely immerse instruments and tools for at least 10 minutes. Rinse thoroughly and dry before use. Prepare fresh solution at least daily or more often if solution becomes cloudy or soiled.

Note: Plastics may remain immersed until ready to use. Stainless steel shears and instruments must be removed after 10 minutes, rinsed, dried, and kept in a clean non-contaminated receptacle. Prolonged soaking may cause damage to metal instruments.

Disinfection of Hard Non-Porous Surfaces in Whirlpool Units: After using the whirlpool unit, drain and refill with fresh water to just cover the intake valve. Add 2 ounces of this product for each gallon of water at this point. Briefly stir the pump to circulate the solution. Turn off the pump. Wash down the units sides, seat of the chair, lift and pail related equipment with a clean swab, brush or sponge. Treated surfaces must remain wet for 10 minutes. After the unit has been thoroughly disinfected, drain the solution from the unit and rinse any pail cleaned surfaces with fresh water. Repeat for heavily soiled units.

Disinfection: Preparation of use solution: For water hardness up to 300ppm add 2 ounces per gallon (16ml/liter) of water (16oz) to dislodge hard, non-porous surfaces (glass, metal, stainless steel, chrome and vinyl). Apply solution with a cloth mop, hand pump trigger sprayer. Treated surfaces must remain wet for 10 minutes. Let air dry. Prepare a fresh solution for each use. Ultronics Ultrasan Disinfectant Cleaner/Disinfectant Concentrate is effective in hard water up to 300ppm hardness. This product is in the presence of 1% organic soil load, dilute 1:94:2 (2 oz per gallon) in 730 ppm Hard Water. Demonstrated efficacy within 10 minutes against the following organisms: Staphylococcus aureus, Salmonella enterica. Remove gross soil or heavy soiled areas. For heavily soiled areas, a pre-cleaning step is required. Note that the organisms referenced in the above statement are not associated with blood spills, for blood spills, the surface must be thoroughly cleaned before applying the disinfectant.

Virecidal: KILLS HIV, HCV & HBV ON PRECLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS: In hospital care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces, objects with body fluids and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus type 1 (HIV-1) (associated with AIDS), Hepatitis C Virus (HCV) and Hepatitis B Virus (HBV).
sterilization or high level disinfection.
Prepare a fresh solution daily, or sooner, if solution is visibly dirty.

NOTE: This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with blood-stream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

*VIRUCIDAL KILLS HIV-1 ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS
in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with potential for transmission of Human Immunodeficiency Virus Type-1 (HIV-1) (associated with AIDS).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 (AIDS VIRUS)

OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.

PERSONAL PROTECTION:
Disposable gloves should be worn when cleaning blood, body fluids or contaminated items. Hands should be washed immediately and thoroughly after gloves are removed, or if hands are contaminated with blood or body fluids. Masks and protective eyewear or face shields should be worn during cleaning procedures involving blood or body fluids. Gowns or aprons should be worn during cleaning procedures for protection against splashes of blood or other body fluids.

CLEANING PROCEDURE:
Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of Ultracide 10 min. Instrument Disinfectant. After cleaning is complete, follow disinfection directions described previously.

CONTACT TIME:
Leave surfaces wet for 10 minutes. Let air dry.

DISPOSAL OF INFECTIOUS MATERIALS:
Contaminated waste and blood and other body fluids should be autoclaved and disposed according to state and local regulations for infectious waste disposal.

FIRST AID

If in eyes

• Hold eye open and rinse slowly and gently with plenty of water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a Poison Control Center or doctor for treatment advice.

If on skin or clothing

• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a Poison Control Center or doctor for treatment advice.

If swallowed

• Call a Poison Control Center or doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told by a Poison Control Center or doctor.
• Do not give anything by mouth to an unconscious person.

If inhaled

• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
• Call a Poison Control Center or doctor for further treatment advice.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.

HOTLINE NUMBER
In case of emergency, call local Poison Control Center. Have the product container or label with you when calling a Poison Control Center or doctor or going into for treatment.
